GERMANS CAPTURE WARSAW, LONDON HEARS

POLICE FIRE ON STRIKERS WHEN THEY MAKE ATTACK ON STANDARD OIL PLANT

Trenton, N. J., July 21.—Mayor Pierre P. Garven, of Bayonne, asked the governor's office here today to send troops to Bayonne. The request was not granted and no troops will be sent unless a request comes from Sheriff Eugene Kinkaid of Hudson county and then only after every local remedy has been exhausted.

New York, July 21.—Serious rioting during which one man, John Molosky, 18 years old, was killed and nearly three score more or less seriously injured marked the second day of the strike of workmen at the plant of the Standard Oil Company of New Jersey at Bayonne, N. J.

The workers, most of whom are of foreign birth and unorganized, gathered at the gates of the plant at an early hour, and disorder, which then began, lasted until nearly noon. At that time the police, assisted by deputy sheriffs and firemen brought the situation under temporary control at least.

The police marched out to the crowd but apparently this did not satisfy the rioters as they made a rush at the police on guard.

During one of the fires a small office building of the Tidewater Company was discovered in flames and the building was virtually destroyed before the fire could be controlled. The origin of the fire is unknown.

This afternoon the Standard Oil officials landed 200 men from

gangs at the plant, presumably deputies who will assist in guarding the works.

The police say several thousand persons took part in the attack.

Three Policemen Hurt

Of the 53 injured taken to the Bayonne hospital fifty are men and boys who fought about the gates of the plant; the other three are policemen. Inspector Cady had a horse shot from under him and later narrowly escaped serious injury when he was at one time surrounded by rioters near a fire house where he had gone to stop an attack.

Sheriff Eugene Kinkaid of Hudson county, arrived on the scene shortly after noon and took command of affairs. In an endeavor to bring an end to disorder by means of persuasion the sheriff, soon after his arrival, rode in his automobile to the square where the crowd of 500 persons were assembled to discuss the strike and watch the gates.

Standing in his car, he addressed the crowd, telling the men they must remain orderly and what his duties were in the situation. He called on every man who would obey him to hold up his hand and a majority did so.

Men Cheer Sheriff

Sheriff Kinkaid spoke for half an hour and several times the men cheered his statements, especially his promises to do what he could to settle the difficulty. The sheriff said he was willing to meet representatives of the strikers, hear their grievances and do his best to bring about a settlement. In consideration of this he asked the men to disperse peacefully to their homes and they said they would do so. A committee of three was appointed by the men to meet Sheriff Kinkaid later in the day.

There were three separate attacks by the rioters today. It was stated that the guards did not fire until the mob attacked with sticks and stones and had fired a number of pistol shots. Then the guards responded with a round from their revolvers. The crowd thereupon dispersed.

VICTORIOUS TEUTONS GAIN MUCH TERRITORY

London, July 21.—Rumors of the fall of Warsaw are in circulation today but the latest communications from both sides indicate the Austro-German rush towards the Polish capital has slowed down. The Russians continue to lose ground, but apparently the campaign has not yet been brought to a decisive issue.

The most important success by the Germans has been won by General von Wrychel, south of Ivangorod. This seems to have been a surprise attack. The Russians, who had heavy reserves in the neighborhood, later delivered vigorous counter attacks but failed to recover the lost ground.

Windau, in Courland on the Baltic is definitely in the hands of the Germans who are now within 35 miles of the important Russian seaport of Riga. Possession of Riga by the Germans would force the Russian armies near Shavli and Mitau to retreat, as the Baltic port is their chief point of supplies. The ambitious German (Continued On Page 6.)

RUSSIAN ARCHIVES MOVED FROM RIGA

Berlin, July 21.—(Via London)—into the Austrian positions in one place, but the attacking forces subsequently were captured and here, as elsewhere, the Russians were unable to make gains. The battle on Monday night lasted six hours, during which the Russians made eight assaults at many points.

According to dispatches reaching Berlin, all the official archives in Riga, the Russian Baltic port, now threatened by the Germans, together with the money of state bank and court records, were taken to Petrograd Monday. Government officials have been advised to be ready to depart. It is said more than 10,000 inhabitants of the city fled last week.

DISORDERS ARE FEARED IN REMINGTON ARMS STRIKE

Bridgeport, Conn., July 21.—Strike calls resulted in machinists throwing down their tools in a number of Bridgeport shops and walking out. Labor leaders claim they had taken 110 additional men from two plants doing work for the Remington Arms and Ammunition company; that pickets had succeeded in keeping 80 men from work at the new plant of the Remington concern; that 100 men on the night shift at the Union Metallic Cartridge company had gone on strike and that during the noon lunch hour, hundreds

of men on the day shift would quit. They estimated this forenoon that nearly five hundred skilled machinists were now on strike. They reiterated their statement that there would be a complete close-down of war munition factories by Saturday.

Disorder Is Imminent

Disorder seemed imminent twice today; once at the new Remington plant, and once outside the works of a contractor making machine tools for the Remington company. Dirt wagons driven two abreast cleared the

road in front of the first named plant. The police, according to an official connected with the contracting concern, dispersed strikers and sympathizers there after they had made a demonstration against the men who remained at work.

The labor leaders asserted that 25 more guards at the Remington plant had gone on strike for more money today. Fifteen were said to have walked out yesterday.

4,000 NEAR STARVATION IN SCIOTO MARSHES

Kenton, O., July 21.—Another heavy rain last night aggravated flood conditions on the Scioto marsh to such an extent that a mass meeting of citizens was held today to plan means of relief for the 4,000 residents of the marsh who are either homeless or on the verge of starvation. A delegation was appointed to go to Columbus today to take up the situation with Governor Willis, Adjutant General Hough and Attorney General Turner in an effort to obtain relief by state aid. There are 4,000 who depend for their living on the onion-growing on the marsh. They are out of work and those who owned crops have not only lost their jobs but their investment.

All are on the edge of bankruptcy and without credit. They can't get anything to eat because they have no money and no prospects of any. Two thousands are homeless. They are quartered in school houses or the second floors of neighboring dwellings.

There are fifteen or twenty on the second floor of every two story house. Inasmuch as one story houses are in the majority, there are hundreds of homes which have been entirely abandoned.

The marsh drains from west to east. Water from the western end is just getting out of the water. There is much cleaning up to be done and an epidemic is feared of the refuse stench. McGuffey and Foraker are still in six feet of water with the end nowhere in sight.

WALES COAL STRIKE OVER

London, July 21.—The South Wales coal miners have accepted the terms agreed upon yesterday, and the strike is therefore definitely at an end. Throughout the coal fields there was an overwhelming majority in favor of the settlement.

RAILWAY IS SOLD

St. Louis, July 21.—The property franchises and all other rights of the Wabash railroad, a \$220,000,000 corporation, were sold under the hammer for \$18,000,000 to the joining reorganization committee of the road's creditors under foreclosure here today to satisfy a \$41,000,000 mortgage of which the Equitable Trust company of New York is trustee.

NEW NOTE WILL HOLD GERMANY RESPONSIBLE

Washington, July 21.—The United States had decided to inform Germany that further loss of American lives as the result of the German submarine warfare in contravention of the principles of international law would be regarded as an "unfriendly act." The discussion of principles is virtually ended. The American government will now warn Germany of the interpretation it will place on future transgressions of American rights.

Washington, July 21.—Secretary Lansing was today perfecting the note to be sent to Germany by the United States on submarine warfare. The character and purpose of the communication had been agreed upon at yesterday's cabinet meeting, and all that remained today was to put it in shape for transmission to Berlin.

The note will be firm, yet friendly, in tone and will renew the efforts to secure for American citizens protection on the high seas. It likely will hold the German government responsible for any actions in the future that might endanger the friendships between the two nations.

Just when the communication will be dispatched to Germany is not known, but it will not be delayed because of the German submarine attack on the British liner Otrunda. Official information as to the circumstances of the attack still was

List Girls, You'll Get The Pip If You Exchange Powder Rags

Along comes an up-state health inspector with the cheerful news that typhoid is to be on the increase this summer.

And then comes the summer girl with the reason—one that she says is the real reason, too.

It's trading powder puffs and bags.

Alas, the poor summer girl. They've made her the butt of a lot of jokes, sent out beach policemen to put a tape line on her bathing suit, told her she cannot go out motoring and hold hands, but she cannot put a fur around

her neck when the mercury is registering ninety-six in the shade. Evidently she was not satisfied with all this, and now she ups and says that the trading of powder rags, even for a fraction of a rub, will spread typhoid.

She states further that aforesaid powder rags are just crowded with little germs. And, according to that up-state health expert, she has the right dope.

Borrowing powder rags, according to this expert strictly unsanitary, and it might spread all kinds of disease, including pip, lumbago and many other ailments.

But inasmuch as the summer girl would probably rather have all of these ailments than a shiny nose, the warning issued by the health expert will probably go astray. Nevertheless, the borrowed powder rag is placed in the same class with the common drinking cup, the common bath tub and the extremely common towel in the summer hotel. They are among the evils the vacationist should avoid.

FEAR ELEVEN DROWN IN KENTON FLOOD

Lima, O., July 21.—Reports from Kenton say eleven Kentucky farm laborers, in the onion fields embarked in a canoe during high water and attempted to escape. The canoe was later found capsized. It is thought all eleven drowned when their craft hit a snag. The marshes are still under water although the river is in its channel. The water will not drain and will simply have to dry off. Sanitary conditions are appalling and will continue so until frost.

Around Lima conditions are nearly normal although continued heavy rains yesterday and last night aroused fear and made residents of the lowlands fearful of another flood. Farmers are still unable to get into their fields.

PLAN RELIEF FOR FLOOD VICTIMS

Columbus, July 21.—Relief for hundreds of persons marooned and destitute in the Hardin county marsh lands was planned today by Governor Willis and Adjutant General Hough acting in conjunction with county officials at Kenton.

Assistant Adjutant General E. S. Bryant, who visited the flooded district, reported today that the food supply of those marooned in the vicinity of Kenton was practically exhausted.

Arrangements were concluded today to remove those in peril and to send food to others. Thousands of acres of Marsh lands in Hardin and Allen counties are devoted to raising onions, potatoes and hemp.

COL. WINANS DIES AT TROY

Toledo, July 21.—Colonel J. Gory Winans, of Toledo, died suddenly in Troy at five o'clock this morning. He had left the train arriving at the C. H. & D. railroad station at 4:45 and was in the ticket office when stricken. He was 70 years old. Colonel Winans had been prominent in G. A. R. circles and at one time was chief of staff of the national commander. For 25 years he was associated with the C. H. & D. R. R., at his death being travelling passenger agent, with headquarters at Lima.

Mrs. George Egbert, of Offshore street, underwent a delicate surgical operation Monday. Her condition was reported satisfactory Tuesday.

"LOYALTY DAY" PLANNED FOR LOCAL BALL TEAM

Thursday, July 29, Is Day Agreed Upon To Sell 1,000 Tickets

With a whole heartedness and a unanimity that bespoke loyalty, a volunteer committee, consisting of a baker's dozen of tried and true baseball fans, held a meeting at the Times office Tuesday evening and within the space of one hour mapped out definite plans for the proper observance of "Loyalty Day" on Thursday afternoon, July 29, when it is hoped to pull off one of the biggest and best days in the history of professional baseball in the city of Portsmouth.

"Loyalty to Portsmouth" was the keynote of every remark made and unless a mighty slip-up occurs, the committee hopes to dispose of not less than 1000 loyalty tickets at one dollar each, good for the game between Portsmouth and Lexington on the appointed day.

This committee of fans will, no doubt, be greatly augmented from the ranks of volunteers, for when the plain unvarnished fact is made known that the local club has run behind to the tune of \$2,000 and the season but one-half over, there is no question but the rallying to the support of the team will be practically unanimous in the fan family. Another fact that shows the game has been all too lightly patronized is that the club has paid to visiting teams \$2200 of the \$2000 receipts. At this rate the local club owners, who have been loyal to the core, will stand to lose fully \$4000 by the time the season comes to a close.

President William N. Gableman, who is the peer of any man engaged in minor league baseball, is for Portsmouth first, last and all the time. Through his untiring efforts Portsmouth has been kept prominently on the baseball map for the past several years. He wants to keep the club here and the committee intends to see to it that he is given the right kind of assistance—the kind that

will help foot the bills.

Friends, did you know that your city of Portsmouth occupies a most unique and yet honored position in baseball? This town has come to be known as the Gibraltar of the Ohio State League—the real backbone of the organization. Other cities have entered and quit, but Portsmouth has kept apace and today is the only town out of 19 which has survived the game of professional baseball so far as the O. S. L. is concerned. Eighteen cities have started and 18 have quit, while Portsmouth remains as the one and only one that has survived. This has been made possible by the loyalty of fans. For some unknown reason the team has not been drawing at the gate. Some days the attendance will foot up to \$30.00, on other days down to \$15.00. Consider the fact that the salary pay roll is \$1000 per month and that visiting teams must be paid at least \$50 per game, and it will require not the scratch of a pencil to prove the team has lost heavily. Also, it proves that the fans should and no doubt will rally heartily to the support of the team from now until the end of the season.

The committee organized last night by choosing F. W. Sheridan as chairman. The organization got right down to work, and arranged to map out a line of systematized action. Two thousand tickets or tags will be printed, and all who buy one or more tickets will be "tagged." A regular shipping tag will be printed, and will contain the following: "I'm Tagged! I am loyal to Portsmouth and her O. S. L. ball team. I've bought my ticket—here it is! Get Yours!" Below this will be printed the admission ticket.

A general committee was appointed by the chairman as follows: Ford Haldeman, Fred N. Tynes, Dr. P. W. Young, St. Straus, George Wurster, Wm. A. Inman

and Robert Gilbert. This committee which will arrange for the sale of tickets, will meet at Mr. Inman's office tonight and make definite plans for the disposition of tickets. The above committee will have all authority for the arranging of the parade that will precede the game. It was unanimously agreed to secure the entire River City band and it is possible that more than 100 automobiles will be secured. The line of march will be announced later by the general committee. The parade, however, will start at the Washington hotel.

It really looks as though "Loyalty Day" will be the biggest baseball event in the annals of Portsmouth, and every fan should lend his hearty co-operation to make the day a genuine success. If plans mature, as it is hoped they will, baseball is assured for Portsmouth throughout 1916. So put your shoulders to the wheel and push.

The committee, which will be added to daily, consists of Billy Doyle, Alan N. Jordan, John Flood, John Kyle, Simon Lehman, Fred N. Tynes, George McMahon, Alva Chabot, George Wurster, William Inman, "Dick" Richard, Ford Haldeman, Dr. P. W. Young, Conrad Roth, Wells A. Hutchins, St. Straus, Robert Gilbert, Charles Seauder, Harry Johnson and F. W. Sheridan.

Keep Clean Yet Keep Cool!

What an improvement over the hot, dusty, tiring sweep day is the cool, dustless, easy way of cleaning with The Hoover Suction Sweeper. All you do is to guide the machine—electricity does the work—and you can depend upon The Hoover to do your work thoroughly.

THE HOOVER SUCTION SWEEPER

does far better work than any other cleaner because it is the only electric carpet sweeper and vacuum cleaner combined. It does everything that the ordinary cleaner does—it applies powerful suction to the carpets and rugs—and in addition it makes this suction effective by the motor driven brush, which shakes to the surface the imbedded dirt and sweeps up clinging dirt, such as hair, threads, lint, etc.—so that the suction is enabled to carry away all of the dirt.

You have no idea what a wonderful cleaner The Hoover is, until you see it. Made in four sizes. Will you see it here at our store, or shall we bring it out to your home!

The story is concerned with the doings of a set of people who are types to be met with in everyday life, unsophisticated innocents from the country find themselves in the purple garb and shrouds of the Big City's night, and from which in the end they emerge unscathed.

The many and varied experiences through which they pass is graphically depicted in this wonderful picture; a picture production that will hold your undivided attention from the title to the very finish.

"The Butterfly" At The Sun Theatre Tonight Instead of "The Nigger"

Howard Estabrook in World Film picturization of H. K. Webster's novel. Howard Estabrook is featured in The World Film Corporation's presentation of "The Butterfly," in five parts, based on Henry Kitchell Webster's well known novel of the same name.

The story relates how a hunchback, in revenge against a woman who has repulsed him, turns her step-daughter to the stage and assists her to become a dancer. The girl, whose name is Elaine, has two lovers for one of whom, John Butler, she forms a sincere attachment. Her step-mother goes to see her dance, and the hunchback, still enraged at her, murders the woman.

The hunchback goes mad and is killed by falling from a cliff. Butler, Elaine's lover is accused of killing him but Elaine clears him of the charge by proving that the hunchback was the murderer of her step-mother. Elaine and Butler find that their mutual loves will make them happy in marriage.

At The Exhibit

A big Keystone comedy feature is being offered at the attraction at the Exhibit theatre tonight. It is the second of those celebrated special comedies produced by the Keystone people. The title is "The Little Teacher" and such well known comedians and actors as Mack Sennett, Mabel Norman, Owen Moore and Patsy Arbuckle are taking the leading roles. "The Choir Boys" is a hilarious drama that is also being shown tonight. Tomorrow night's bill includes "The Shadowgraph Message," a sensational drama with Howard Hickman and Walter Edwards starring.

At the Majestic

Three reels of high class pictures are being offered the patrons at the Majestic theatre tonight. "When He Forgives" is a strong drama that heads the bill. "Her Birthday Present" is another good picture that all will enjoy. "Novelty Servants" is a screaming farce comedy that is rich with fun all the way through. Thursday's pictures include "Shadows of the Harbor" and "The Plumber."

Big Society drama "Trickery" At Arcana Theatre Tonight

One of those big society plays, entitled "Trickery," a two reel production featuring Frank Lloyd, Helen Leslie and M. K. Wilson, will be the big offering at the Arcana theatre tonight. This play is highly sensational, and the interest is ever kept at high

tide. "This drama is strong in every particular and a rare treat indeed. Don't fail to see it. In addition to the society drama will be shown a Nestor comedy entitled, "Broken Hearts and Pledges." This is a screen from first to last and a thousand laughs are guaranteed. On Thursday evening Charlie Chaplin will be seen at the Arcana, and there is little need to enlarge upon the work of this gifted comedian. And the best of all is that the Arcana admission price is but five cents.

ARREST IS MADE IN LAVALLIERE ROBBERY

Emory Harr, aged 18 years, and Charles Larkins, aged 20, were arrested by Officer Joe Bonzo and locked up Wednesday morning pending investigation, officials suspecting them of the diamond lavalliere theft at the John Yankey repair shop on Gay street.

Larkins returned the missing lavalliere to its owner, Mrs. Chester Wallace, of Sixth and Gay streets, Wednesday morning, under the pretense that another fellow had given it to them. Larkins and Harr have been working in Cincinnati, drifting back to Portsmouth last Thursday.

A remark overheard the day of the theft directed the police to Harr and Larkins. Chester Wallace had seen three young fellows in front of the repair shop and overheard one of them say: "Let's wait for Dewey Martin." Martin was in a nearby barber shop at the time. Acting on this information, the police hunted up Martin and learned from him the identity of the other three. Howard York was the third one of the party.

Larkins lives in the North End, while Harr is a resident of New Sixth street, within the zone of several jewelry robberies of the past few days. The police officials accused them of the other jobs, but they strenuously denied any connection with them. A mail carrier, who saw two young fellows in shirt-sleeves dividing money near the E. V. Leach home, on Fifth street, the day it was robbed, will be asked to look at the two suspects.

TERMINALS

N. & W. extra freight 1021-1026, in charge of Conductor William Suter and Engineers H. Smith and W. L. Leslie, was delayed several hours Tuesday night at Rex, O., between Congrove and North Kenton. The train was headed in a switch and when the engineer found the train going onto the main track he threw on the emergency brakes, causing two cars to turn over onto the east bound main track. Two other cars were off the rails. The switch lights were out, which caused the engineer to run onto the main track and throw on the emergency brake.

The Kenova wreck cars cleared the tracks. Charles Jackson, of the firm, Jackson and Veneer, Gallia pike grocers, was able to be up and around Wednesday after a several days' serious illness with rheumatism.

Mrs. W. B. Pyles, wife of an N. & W. fireman, left Tuesday for Kenova to visit relatives.

Protest Stops A Picture At Sun

A delegation of colored citizens headed by Rev. Addison Haley called on the mayor Wednesday to protest against the Sun theatre management exhibiting the picture taken from Sheldon's masterwork "The Nigger."

When asked by the Times Wednesday afternoon the Sun management declared that while it was possible for them to display the picture, it having passed the state censorship they had decided not to do so in answer to the requests of the mayor, other officials and several societies.

SUN MANAGER IS COMMENDED

Manager Studyvin, of the Sun theatre, received the following commendatory letter from the mayor, Wednesday:

My dear Mr. Studyvin:—I appreciate your willingness to co-operate with this office in maintaining the best of order throughout the city, and your manly attitude in agreeing to withhold such moving pictures as "The Birth of the Nation," or its subsidiaries, which have for their purpose an inciting tendency toward class hatred.

The public should know, since you have gained the idea of the executive, that it is not your intention to display before the public other than the highest class moving pictures. Respectfully submitted, ADAM FRICK, Mayor.

COMMITTEE THANKFUL

A number of the representative colored citizens of our city were invited by the management of the Sun theatre to witness the exhibition of the photo play "The Mystery of Morrow's Rest" adapted from Robert Sheldon's work "The Nigger." In response quite a delegation headed by Revs. Addison Haley and John Irvin were present at the appointed hour, to witness the exhibition. The manager, Mr. Ralph Studyvin, for certain reasons informed this delegation that he had decided not to exhibit this play. The committee in return thanked the manager for his kind consideration. We also wish to express our heartfelt thanks to the mayor, the Hon. Adam Frick, for his kind consideration in this matter. We wish to commend the mayor for his high ideals of citizenship; and for his stand against anything being brought into the community that would cause friction between the races or lower the high standard of good citizenship.

Rev. Addison Haley, Rev. John Irvin, Rev. G. Metcalf, Rev. Franklin Maron, Fred Minor, Dr. J. T. Brodhead, William Gooden, Edward Walton, William Haley, Fred Penman, John W. Evans, Elmer F. White, William Cornute, Charles E. Johnson, Sec. H. O. Williams—Committee.

Had Fine Trip

Milt Sarver, of 2202 Vinton avenue, has returned from Western Kansas where he worked two weeks in the wheat harvest where he found plenty of work at \$2.50 to \$3.50 a day and splendid board. On his return trip he stopped at Topeka, Kansas City and St. Louis, Mo. Wichita, Kansas, was the finest place he visited. It has 75,000 inhabitants. He will resume his studies at the Portsmouth College of Business as soon as it opens.

NEW GASES OF GERMANS ARE DEADLIER AND QUICKER THAN EVER

Top, Russian Red Cross nurses tending "gassed" Russians brought in direct from trenches on stretchers; below, paraphernalia designed to protect against gas bombs.

"The Red Cross learns that the gases which the Germans are employing on the Russian front are denser, deadlier and quicker in their action than heretofore," says Reuters' Petrograd correspondent. "Respirators are generally inefficient."

"I much regret," says Field Marshal French in his official report, "that during the period under report the fighting has been characterized on the enemy's side by cynical and barbarous disregard of the well known usages of civilized war and by flagrant disregard of The Hague convention."

"All the scientific resources of Germany apparently have been brought into play to produce a gas of so virulent and poisonous a nature that any human being brought in contact with it is first paralyzed and then meets with a lingering and agonizing death."

NEW BOSTON

Willbur Artis of 277 East Gallia pike, had both his feet and ankles and several fingers badly burned about two o'clock Wednesday morning while at work in the steel plant. Artis, who is a nozzle setter, was helping pour a heat and some of the molten metal splashed over on the "standing" where Artis was working. The metal burned through his shoes, he receiving several burns on his ankles.

Contractor E. A. Steadman of Sciotoville, who had the contract for the moving the old frame school building on Ohio avenue, purchased by Mayor J. S. Davis, "threw up" the job Wednesday. The board of education will meet Friday evening.

The twin boys born to Mr. and Mrs. Edward Semogues recently, are getting along nicely. The members of the steel plant boys' band will meet for regular practice Thursday evening. They will adopt the name of the Whitaker-Glessner Boys' band. A new leader will also be chosen in the place of Joe Hladik, resigned. Any boy who leaves the band will have to leave his instrument. The instruments are the property of the steel company. A benefit show will be given for the band by Rudolph Kuntz at the Thalian theatre July 29.

Will Middaugh, manager of the steel plant boys' band, took out a writ of replevin against John Miliken, former manager of the band, Tuesday night, in order to secure several instruments which Middaugh claimed Miliken was holding. Constable C. O. Davis attached the instruments which were one base drum, symbol, snare drum, bass horn, piccolo and alto horn. A hearing will be held Saturday before Squire McManes.

A concrete floor is being put in the basement of the building occupied by William Simon with a grocery on Ohio avenue and Grace street.

Louis North of the city, is having three of his houses on West Grace street piped for water and

gas. Will Huff is doing the work. Frank Lantz, head of the employment, safety and police department at the Whitaker-Glessner plant at night, will succeed John Milliken who held the office in the day time. Lantz will be succeeded by Sanford Linek. Linek was formerly night superintendent and also clerk to Mr. Milliken.

Frank Taylor, ex-councilman, has secured the agency for the Acetylene Generator put out by the Detmar Manufacturing company of Chicago. Taylor's territory is Scioto and Jackson counties, this state, and Lewis and Greenup counties, Kentucky. Taylor will install complete acetylene lighting systems.

Louise Graham Huff, 22-months old daughter of Mr. and Mrs. Will Huff, of East Rhodes avenue, is ill with summer complaint.

Mr. and Mrs. Earl Manyon have moved from 2138 Eighth street to 70 East Rhodes avenue. Plumber Will Huff of Gallia pike, is installing water and gas pipes in the J. V. Thomas property at 60 East Stanton avenue.

The three negroes arrested Saturday night and released Sunday on bonds have forfeited their bonds by failing to appear for trial.

Kaps Bros. are finishing their work on the three room and auditorium addition to Stanton avenue school. A belfry has been put on the old building. Doorways have been cut from the main building to the addition. The large auditorium is on the second floor. Plasterers are rushing their work. Floors and blackboards remain yet to be installed. The work of moving the old frame building facing Ohio avenue is progressing slowly. Mayor Davis, who bought the structure, will convert it into a large apartment house.

Kelley Bros. have four crews of men at work on paving jobs in the village. Gallia pike is being ploughed from Harrisonville pike this week. Brick have been hauled for the Harrisonville pike and brick are being hauled for Oak street.

FRANK'S RECOVERY CERTAIN

Milledgeville, Ga., July 21.—Marked improvement in the condition of Leo M. Frank, whose throat was cut Saturday night by a fellow convict at the state prison farm here, was announced today by physicians attending him. His temperature was 100, the lowest since Sunday, and his pulse and respiration was practically normal. The physicians say that while he is not yet out of danger his recovery now is practically certain.

ROOSEVELT DAY AT FAIR

San Francisco, July 21.—This is "Roosevelt Day" at the Panama-Pacific Exposition. Col. Roosevelt, former president of the United States, is on the program to make two addresses, participate in a tree planting ceremony and be the guest at a reception. Mr. Roosevelt's first address of the day is for the members of the army and navy. His second address was to be on "War and Peace" which he said, on arriving here last night, might just as well be called "Dann the Mollycoddies."

Tonight Mr. Roosevelt is expected to witness the second storming of San Juan hill, depicted in fireworks.

'MEDIATION AND PRAYER' TO BE SUBJECT TONIGHT

"Mediation and Prayer" will be the subject at the Gallia and Offenburg street tent tonight. "Why Not Found Out Before?" was Mr. Eusey's subject last night. Using the words of Solomon, he said: "To everything there is a season, and a time for every purpose under the heavens. I said in mine heart, God shall judge the righteous and the wicked; for there is a time there for every purpose and for every work."

"Peter gave to the world, in his day a statement that he calls 'present truth,' or a message for his day. Wherefore I will not be negligent to put you always in remembrance of these meetings, though ye know them, and be established in the present truth."

"Viewing the future in the light of the past, we may expect that before the second coming of Christ a definite message will go to all the world. The Lord warned Noah, and through him the world. For over a century, 'coming doom' was preached; the masses rejected the message, but in due time the deluge swept away every false hope. Nineveh was warned; Jerusalem was warned; and so will all the world. The second coming of Christ will be the climax to all earthly hope; eternal bliss for the faithful, and punishment for the wicked."

The message of Christ's second coming could not have been given in the days of Abraham, David or Paul. These men had a definite work before them, but just before Christ comes a definite message will be given that will stir the world and

A REMARKABLE CHARACTER.

Judge Bradbury, who died at Pomeroy a few days ago, was one of the most remarkable and interesting figures in Ohio's history. In the course of an active career that began in 1855 when as a boy of 17, after having been an agent of the Underground Railway and helped runaway slaves to freedom, he ran away to Kansas to help make that state free, he played many parts on the stage of life. He remained in Kansas two years, leading a wild and adventurous life as one of the "soldiers" who made periodical raids on the slavery adherents under the leadership of John Brown and of Gen. James H. Lane. He voted for the Topeka or anti-slavery constitution of Kansas in 1857. In August of the same year he became a volunteer in the army that was sent to subdue the Mormon rebellion, serving for two years in Utah and marching into Salt Lake City behind General Albert Sidney Johnston. Discharged from the army in June, 1859, he joined an exploring expedition sent to Fort Walla Walla, Washington territory, under command of Major Reynolds.

In the spring of 1860, at the age of 22, young Bradbury drifted down into California, where for four years he worked in the gold mines or prospected for gold on his own hook. In 1864 he returned to Ohio and enlisted in the 140th O. V. I., serving until the close of the civil war.

It is interesting, too, that on his return trip from California Judge Bradbury came by ship from San Francisco to Panama City, crossed the Isthmus by the trail through the valley where is now the big canal, traveling by foot, and from Colon sailed to New York City through the Caribbean Sea, Gulf of Mexico and the Atlantic Ocean on a sailing vessel.

And then in 1866, this man who with all his varied experiences was only 28 years of age, was admitted to the bar, beginning practice at Pomeroy which city ever after claimed him as her first citizen. Two years later he was elected prosecuting attorney of Meigs county, serving four years. He became prominent as a Republican leader in his section and through an alliance with General Grosvenor, just entering upon his long career, he reaped substantial rewards. He became common pleas judge, then associate justice of the state supreme court, then chief justice, serving long years on the bench with distinguished success. Upon his retirement from the supreme bench he was elected common pleas judge for his old district, and was serving in that capacity at the time of his death.

Judge Bradbury was of distinguished lineage. He came from a family noted for its intellectual gifts and for its fighting ability. The American branch was descended from Thomas Bradbury who came out to Maine in 1634 as the representative of Sir Ferdinand Gorges, proprietor of the province of Maine. From Maine Thomas Bradbury moved to Massachusetts where he became a judge of the provincial court, but which did not prevent his wife, Mary Perkins, from being tried and convicted of witchcraft. His influence however, saved her from the usual punishment inflicted upon witches. Succeeding generations played active parts in the destinies of the communities in which they lived, all being successful in various lines of endeavor.

What a wonderful, what a varied record, was that of Judge Bradbury. Who would not envy him his association with John Brown, his march into Utah when Mormonism was at its militant height, his explorations of Washington territory, his experiences in prospecting for gold, his later relations with the men whose names are written large on the nation's pages of history. It represents an age of Americanism that has passed away, an age with which Judge Bradbury was one of the few remaining connecting links, an age that makes our own look dull and prosaic in comparison.

As to the personal characteristics of Judge Bradbury, we are indebted to Editor Sibley, of the Gallipolis Tribune, who knew him well and who in the course of an editorial review said among other things:

"The late Judge Bradbury had a physique that would attract attention anywhere, with a habit of throwing up one shoulder at intervals that excited comment. His face was carefully trained to mask his thoughts, even his eyes seeming to be under such control that he could keep them cold and inexpressive when passionate emotions were stirring behind them. His abundant and shaggy beard, retained in an almost hairless generation, made him a conspicuous personage wherever he went. He possessed physical dignity of a rare type, and it was no inconsiderable asset in an active political career extending over forty or more years.

"From the time we came to know him first (this was one generation in advance of ours) we saw in him a most capable leader in the game of politics. With masterly adroitness he played it to breed strength for himself where there was weakness. He could appraise a political situation with great accuracy, and participate actively in it in such a way as to satisfy his friends and placate his enemies. There was nothing of discredit to him in this. He went just far enough, and did not stop over. His enthusiasm never ran away with his reason, and his vision of what was coming in the game was rarely at fault. He was never a quitter, but he was always prudent in his moves.

"After a few years on the Common Pleas Bench his strength

"Oh wad some power the giftie give us,
 To keep these cool spells longer wi' us."

as a judge, together with the integrity and justness which marked his decisions, brought him great favor from the people of all parties, over and beyond anything his political sagacity and party allies could win for him, and that favor became the towering superstructure, so to speak, which, resting on the solid foundation of the ever-ready support of Gullin, Meigs and Athens counties, attracted to him the promotions which finally made him Chief Justice of Ohio. Without it he would have gone down time and again, for he was the subject of much personal criticism wholly apart from his official service, which was uniformly well done.

"So long as Judge Bradbury performed his public duties ably and well, he regarded his private life as nobody's business, but his own. Living in a town whose people are largely Germans, he fell into their recreations and enjoyed them. A game of penicill and a mug of beer with his fellow-townsmen who liked them, was his habit for forty years, no matter how his public hours grew in importance or distinction. He enjoyed a game of poker and he liked a drink; and he took them both off duty, in utter disregard of a sentiment that would have wrecked the political prospects of a weaker man."

From the frequency with which these inland towns in Ohio are getting flooded out, we have come to the conclusion that from a flood standpoint, Portsmouth is a lot more desirable as a place of residence. True we have floods, but we only have them at a certain season of the year and at that only occasionally. While with Lima, Marion, Delaware, Kenton, Dayton and others they are liable to be drowned out every time a two by four rain comes. Which shows the advantage of being located on the banks of a real river rather than a jim crow sort of an affair.

New York, July 21.—The pug dog, so dear to the grande dames of Fifth Avenue in the days of low-necked backs, has passed. Does anybody know where a single puglet can be found? Living or dead? (Silence—waiting for an answer.) No! We told you so. A famous Gotham taxidermist who used to stuff fifty pugs a year hasn't laid eyes on one since 1908.

His last customer was a stout lady who brought her deceased pet on an eiderdown pillow, and wept piteously when told she would have to wait two weeks before he would be ready to look at. Yes sir and Yes mam! the pug has passed to that mysterious realm. He has gone into history along with high-wheeled bicycles, wax roses and New Year's calls. No person can picture a pug living in this eight-cylinder gas wagon age. He is a symbol of the gentler age.

The pug would wheeze himself to death and fall out—pow!—at the first hairpin curve. The pug belonged to the era of landaus, whatnots, horse-cars and old-fashioned turkey dusters.

The Nation the grand old publication, has been having a lot of praise and good wishes heaped upon itself the last few weeks in celebration of its fiftieth anniversary.

The periodical tells with relish and good humor a good story on itself. During its early days it once published a list of contributors—a solid array, too solid, some thought.

Immediately the editor of a frivolous publication of the time conspicuously reprinted the list in his own paper, preceded by the reassuring announcement: "None of the following writers contribute to these columns."

Down at the City Island one of the White Way dancers who wishes to bathe with great privacy and discretion installed her

own bathing machine. It was quite a clever idea but there are a lot of newspaper readers who would like to know whose overwhelming desire for privacy it was that landed in all the papers a picture of the bathing machine enlivened by two actresses in one piece bathing suits.

Dr. F. M. Planck, of Kansas City, arrived in town to deliver a lecture at the Waldorf on the day that the newspapers reported that Mrs. Evelyn Thaw had been "formally arrested." He said he was extremely glad to learn that she had been "formally arrested."

Out in his part of Missouri it seems there is a deplorable tendency to arrest people with much informality. However, as Dr. Planck pointed out each police force has its rules of etiquette and what might be an fault in Missouri might be counted positive

rudeness in these over-cultured metropolitan centers.

There are more New Yorkers staying at home this summer than ever before. Several years back it was a species of downright commonness to stay in the city during the heated term but now that the war has put some crimps in big incomes there isn't such a hesitancy and it is not so vulgar as it was.

Long Beach seems to be the most popular sea-side resort just now with its By The Ocean trotteries and located so close to New York. Also the train service there is quite good.

Those who know, however, say that the Coney Island crowds in some instances are transferring their affection to Long Beach and if this is true a lot of home builders are going to be greatly distressed.

Madison Square Garden seems to be affected by the Thaw jinx too. Since the tragedy atop the big building there have been numerous efforts to put on some amusement attractions but all have failed. The latest failure was a moving picture show.

CHICAGO GRAIN
Chicago, July 21.—Free selling
of wheat resulted today from
favorable weather throughout the
entire belt. Conditions for the
spring crop were no promising
that some authorities referred to
indications of a bumper yield,
notably in South Dakota. A de-
cline in quotations at Liverpool
counted also on the bear side. Af-
ter opening ¼ to ½ lower, the
market here continued to sag.

Notwithstanding that corn
passed off a little with wheat, prices
soon rallied. There was no pres-
sure to sell on the opening
which varied from the same as
last night to ¾ down, was fol-
lowed by a general hardening
values.

Oats took the same path as
corn. Trade opinions seemed to
be well divided.

Lower prices for hogs weakened
provisions. On the break, how-
ever, support developed especially
in ribs.

MISS LOWE RESIGNES; NURSES' FATE UNCERTAIN

CONFERENCE WILL BE HELD TOMORROW; SEEK NEW SUPERINTENDENT

It was learned Wednesday that Miss Helen J. Lowe, superintendent of Hampstead hospital, had tendered her resignation to John Linck, director of public safety.

Mr. Linck said he would accept the resignation, but with the understanding that Miss Lowe remain in charge of the hospital for such time until he could find a competent person to succeed her. This, it is understood, she is willing to do though she had hoped to be relieved at once. She expects to go to New York city next month to take a post-graduate course in nursing before definitely deciding upon her future plans.

The mayor said Wednesday that "it is but fair to privilege the new superintendent to be appointed, to select her own staff of nurses and she undoubtedly will exercise care in surrounding herself with persons whom she is satisfied she will be able to control for the good and efficiency of the institution so that the former student nurses who might wish to re-enter the hospital service will have to comply with the rules of the department and apply for positions, and as previous records are to be considered, it would be folly to presume that any disturbers would be taken back."

The safety department is understood to have lines out for a competent head nurse who is at present located at the Protestant hospital in Columbus. This is said to be Miss Gurney Noel, daughter of Squire Thomas Noel, of the Scioto Trail.

It is understood Miss Lowe has been offered a fine position in Cincinnati at a much larger salary than she is receiving here.

Miss Lowe's Resignation

Miss Lowe's letter of resignation is as follows:

To the Honorable John Linck, Director of Public Safety.

Realizing that a persistent effort has been and will continue to be made by the political enemies of the present city administration to use Hampstead hospital and its management for political ends and aggrandizement and knowing that under such conditions it is impossible to maintain the high standard of efficiency that the city should require and demand in the management of its hospital, and further realizing that an effort is being and will be made to reinstate certain nurses that are now on duty at the hospital, and fearing that in cases of reinstatement of certain of these nurses it would be impossible to maintain proper discipline, efficiency and management of this most important of the city's institutions, therefore

In order that you be given full opportunity to deal fairly and justly with these difficult situations, and also to relieve myself of the duties incumbent upon me as superintendent of this institution that are made especially

burdensome by reason of afore-said conditions, and

That the high standard heretofore maintained in the hospital may be preserved and maintained as fully as possible, I hereby tender my resignation as superintendent of Hampstead Hospital, and request that my successor be named with as much dispatch as possible.

Appreciating the confidence heretofore placed in me and assuring you that my greatest desire is for the future welfare of this institution and the unfortunate people who shall be cared for here.

I am very truly,
HELEN J. LOWE.

Mayor Also Writes Letter

The mayor has sent the following letter to Miss Lowe:

Miss Helen J. Lowe, Superintendent Hampstead Hospital, City.

Dear Madam:

I appreciate your thoughtfulness in forwarding me copy of your resignation to the Director of Public Safety.

After carefully reading the ideas expressed and the causes which prompted you to take this step, it is well for me to say that you have perhaps taken the best course, one that will no doubt redound to your credit. You have by this method given over the institution into entirely new hands, who if to be successful must depend upon discipline.

The success of any business or institution must come from its management through its employees observing the rules of its superior officers. And these rules cannot nor will they be adjusted from time to time to conform with the changing ideas of those who enter the institution for a two years training. This with special reference to our hospital.

I appreciate the service you have rendered this city. And I am certain that the great number of patients you have attended are not among those who desire you to lose your position. I wish you success wherever you may find an engagement.

With respect,
ADAM FRICK,
Mayor.

Conference Over Nurses

A conference between Director Linck and Attorneys H. T. Bannan and Edgar Miller, lawyers for the dismissed student nurses, has been arranged for Thursday morning to discuss the situation.

Mr. Linck said he is now responsible for the proper conduct of the hospital and that while he is not prejudiced against the former nurses and wants to be agreeable all around he realizes it would not do to reinstate the nurses as long as Miss Lowe is in charge. Before reinstating any of the nurses, added he, he would have a distinct understanding with them.

RUSSIANS DESTROY FLEET

Petrograd, (U.S. London) July 21.—The following official communication has been received from the headquarters of the Russian army in the Caucasus:

"Our destroyer flotilla destroyed a fleet of 69 Turkish sailing vessels laden with food."

"A battle is raging in the direction of Moush (A-i-ah). Turkey's 30 miles south of Erzerum. We captured Noyk in the course of the fighting."

WILLIS IN MASSILON

Columbus, July 21.—Governor Willis is in Massilon today to address a meeting of mail carriers. It was stated at the executive offices here that the governor might announce the members of the new agricultural board today, while on his trip.

BECKER SENDS PLEA, HAS NEW EVIDENCE, WANTS NEW TRIAL

New York, July 21.—Counsel for Charles Becker awaited today the result of Becker's application to Governor Whitman to forbid his execution on July 26 for the murder of Herman Rosenthal. Becker's plea sent to the governor at Albany last night included a long statement of his version of the facts leading up to the murder. In this statement Becker denied complicity in the murder and said that State Senator Timothy D. Sullivan, now dead, had told Becker that he had \$12,500 invested in Rosenthal's gambling house and that when Rosenthal began to make public statements about the raids on his place, Sullivan expected a promise from Becker to keep Sullivan's name out of it. Becker said that he had kept his promise up to the time of the making of his plea for executive clemency.

Becker's statement made no disclosure of police graft, but gave an account of his movements on the night of the murder. Martin B. Manton, of Becker's counsel, has announced that proceedings will be started in a day in application for a new trial for Becker on the grounds of newly discovered evidence. The nature of the new evidence was not disclosed. It was reported that friends of Sullivan have offered to make affidavits substantiating in part the story which Becker told. One of Becker's attorneys, who prepared a portion of the statement sent to the governor said it had been decided to take this action in order to avoid a delay in first appealing to a supreme court justice for a new trial.

"Becker is ready to die. He does not ask favors of anyone, but he wants to prove his innocence," Mr. Cochran said.

ONE KILLED IN STRIKE

(Continued From Page One)

Daniel Cady, who is in charge of the police at the plant, following the attack, called on Fire Chief Albert Davis for assistance and the latter took a dozen men and many lengths of hose to the plant. These will be used to fight rioters with water should there be any further attacks.

Previous to the attack on the police a disorderly crowd of several hundred persons gathered at the house of fire company No. 4, of the Bayonne department and smashed the windows in the building. The fireman attached hose to hydrants and prepared to defend themselves with streams of water but the crowd withdrew. The fire chief said there was no reason for the attack except that the fire house was city property and the city as was its duty, was guarding the Standard Oil plant.

Fighting Becomes Serious

Later fighting was resumed around the Standard Oil plant and assumed serious proportions. The Bayonne chief of police says that about 5,000 men were engaged in the attack. The injured included both rioters and police.

There were no additions to the strikers' ranks today. The men employed at the Tidewater Oil company's plant, which adjoins the plant of the Standard Oil Co. were expected by the strikers to join them. Instead all hands went to work. Whether the strikers had been misled in this matter is uncertain, but the sight of the Tidewater starting up for the day seemed to anger the crowd which had gathered and it began, it is stated, an attack on the Standard Oil plant. No one went in or out of the Standard Oil plant today. The company's employees, who remained on duty to guard against fire and keep things in shape, come and go by the water front where they can be loaded into tugs. Most of them are engineers and firemen.

Bayonne Police Help

In the plant were seventy-five deputy sheriffs, sworn in by sheriff Kinkead, and also one hundred special policemen furnished by Bayonne. These men are said to be legally entitled to serve. Great care is said to have been taken to avoid the steps which led to the trouble at the fertilizer strike at Rossvell, N. J., last winter, when outsiders were imported and sworn in as deputies.

Outside the inner guard were the uniformed police of Bayonne. It was part of this force, under personal command of Inspector Cady which was guarding the approach to the main gates of the plant, that was attacked today. Several policemen were mounted and they, with the inspector, bore the brunt of the fight. They drove the rioters back and most

of them were hit with stones and pieces of slag. Shots were also fired at the police.

The situation became so threatening that the inspector ordered revolvers drawn and the police then fired a volley over the heads of the crowd. It halted the attack only a moment and then the order was given to fire again but this time to aim low.

The police believe many more bullets than three found human marks, but that the injured were carried away. The three wounded men were sent as prisoners to the hospital. The rioters finally gave way before the police fire, and did not renew the attack.

General Manager Gifford of the plant repeated today his statement that the company would listen to any request or demand of its employees, but had received none. The strike, he said, had been fomented by outsiders.

works manager of the company, as to how many men, according to the company's count, had struck was unsuccessful.

Told To Quit at Noon.

Scores of machinists visited their headquarters before going to work at Union Metallic Cartridge plant. Each was informed by George G. Bowen, local business agent of the union that the walk-out was scheduled for noon. It was stated that all the men who talked to Mr. Bowen said they intended to quit at the time designated. Other machinists working in a sub-contracting plant, also appeared at the machinists' headquarters. The men in this plant have also been notified to walk out at noon. Those who visited the union headquarters said they were ready to quit.

Mr. Bowen said that he and the international labor leaders were satisfied with the work of the pickets at the Remington plant. "Everything is running on schedule," he declared. "We have profited by the mistake made yesterday. From now on we will pull the men out of just one shop and then another. This is a big job we are doing. We can't do everything at once."

Organizers At Work.

It was learned today that many of the machinists employed by the Remington company were visited at their homes last night by committee men who requested them either to stay away from the plant entirely today or heed the instructions of the pickets in front of the plant. According to Thomas J. Savage, member of the executive board in International Association of Machinists in charge of the situation during the absence of J. Keppler, vice president, a number of machinists did not go to the works at all today.

It was reported in labor circles that women organizers had been sent to Bridgeport from New York to organize the women and girls working in all the factories here. Many girls are employed by the Remington concerns while others are working in corset and waist manufacturers.

Definite confirmation of the report could not be obtained.

GERMANS CAPTURE WARSAW?

(Continued From Page One)

maus hope not only to capture Warsaw but to cut off the retreat of the Russians by placing forces between the retreating armies and

Petrograd. All these late advances place Grand Duke Nicholas the Russian commander-in-chief, in an embarrassing position. To risk obstinate resistance might imperil his retreat, but it is pointed out here that such an extended Austro-German line may contain weak points against which a counter move might be made in the hope of saving the Polish cap-

ital. Military writers assert that the presence not only of Landwehr, but of Landstrum troops in the German lines indicates the central powers are exerting every resource to crush the Russians.

Mine warfare along the British front and isolated actions on the remainder of the western battle line are not of sufficient importance to distract public attention from the eastern campaign.

The Italians are reported to have waged a fierce battle yesterday along the Isonzo front, with some success on Corso plateau.

OLD AGRICULTURAL BOARD DIES TODAY

Columbus, July 21.—This will be the last day of existence for the Agricultural Commission, created less than two years ago, and to be replaced tomorrow by the new Board of Agriculture, consisting of 10 members, more than half farmers, appointed by Governor Willis. Those who go out of office this midnight are: A. J. Sandles, president of the Agricultural Commission; S. I. Strode, member in charge of food division; C. B. Williams, agricultur-

ist at the experiment station, and E. F. Gaymen, secretary of the commission. Homer Price, retired from membership on the commission several weeks ago, when he ceased to be dean of the College of Agriculture, Ohio State University. The salary of the members was \$5,000. Members of the board of agriculture will serve without pay but will receive expenses during their trips to Columbus for meetings. They will elect an executive secretary who will be paid \$4,000.

MEXICO CITY AGAIN OCCUPIED BY ZAPATA

Washington, July 21.—Further developments in the rapidly changing events at Mexico City were anxiously awaited by officials here today. The Mexican capital is again occupied by Zapata forces, the city apparently is once more isolated from telegraphic communication with the outside world and railroad communication with Vera Cruz is suspended. These are the latest developments in Mexico City as disclosed in official reports to the state department.

Relief measures for the hungry Mexican population of the Mexican capital have been halted in consequence of the suspension of railroad communication and the situation is reported as desperate. Officials fear that great suffering among the people will result.

The re-occupation of Mexico City Sunday by Zapata's army after evacuation by the Carranza forces under General Gonzalez took official form here by surprise. The Zapata forces were driven from there eleven

THOUGHT THEY HAD CAUGHT HI YALLER

Police Chief W. T. McCarty in response to a message from Maysville, Ky., accompanied by Officer Flowers arrived there Wednesday afternoon to investigate a report that they had Hi Yaller in custody.

Upon the arrival of the Portsmouth officers they were surprised to find that the negro who was thought to be "Hi Yaller" had died at 1 a. m. They hastened to the morgue and one glance sufficed to convince them that the corpse was not that of "Hi Yaller," although in some respects he answered the description of the alleged gunman in the Kansas murder case.

The dead negro is Jerry Lewis, of Augusta, Ky., and was killed in the running battle with officers there Monday night.

TOURING CAR TURNS TURTLE; WOMAN HURT

A touring car filled with passengers, and which is said to have been that of Ed Metzger, of Norwood, O., formerly of this city, turned turtle after going over an embankment near Seventeenth and Chillicothe streets, Wednesday afternoon, and a woman passenger was the only one injured. She had a finger scratched.

Several women and children, relatives of Mr. Metzger, were in the car. Mr. Metzger's car was descending the hill there when the springs of his car broke, and rather than run into an N. & W. freight train that was passing, he swerved the machine to one side, with the above result.

Mr. Metzger is a traveling salesman for the Alan R. Grossman Sons, cigar manufacturers of Philadelphia, and is a frequent visitor to this, his native city.

DOCTORS PRINCIPALS IN A \$5,000 DAMAGE SUIT

fact, she does not seem to have any outside her relatives. I do not wish to be considered rude or selfish, but I have a young daughter and I feel this is a poor example to put before her. Now, do you think that a girl who cares anything about her reputation will do as she does? And will you tell me what to do under the circumstances? And accept the thanks of a MOTHER.

The hardest but most effectual thing would be to tell the girl's mother. If you yourself talked to the girl she would probably merely stop using your phone, but phone elsewhere; while, if you tell her mother the result may be far reaching and the girl made to see the mistake she is making. I do think that a girl can value her reputation and still do the things you have mentioned. If she was taught at home that it was wrong to do such things she would not do them.

Miss Dolly Wise.—I understand you can give a recipe for the drink habit, if so, I wish you would kindly have it printed as soon as possible.

TROUBLED WIFE.

Here it is and please preserve it so I won't have to print it again and again. 5 grains sulphate of iron, 10 grains of magnesium, 1 drachm spirits of nutmeg. Mix and dissolve in half pint of lukewarm water. Let it stand until settled, which will be in two or three days. Dose: One teaspoonful two or three times a day. It can be given in any liquid substance and is perfectly harmless. It is said to stop the craving for liquor.

Dear Miss Wise.—We are a family of means and I have a girl of seven. I would like her to get acquainted with good company. How will I get her acquainted? NEW RESIDENT.

You cannot force friends upon your child. Teach her to be a little lady and she will attract lady-like friends. A child of seven is too young to be allowed to associate with children you know nothing about. Keep her at home unless you can go out with her yourself.

Dear Miss Wise.—The young people come to you for counsel. Will you also listen to an old woman? I have a tale of woe. We have a telephone in the house and are always glad to oblige the neighbors who ask to use it. But one party, a girl of sixteen, has made herself a nuisance. There is scarcely a day that she does not come in and call up some young man, making an appointment to meet him, or asking him to her home. If it were one particular fellow I should not care, but there are several. Some of them are boys of her own age, some considerably older. One of them whom I know personally is old enough to be her father. She never calls up girl friends. In

SOCIETY

At half-after one o'clock this afternoon Miss Maud Riegel, handsome daughter of Mr. and Mrs. E. W. Riegel, of Eleventh street, and Mr. Stanton E. Sheln, son of Mr. and Mrs. J. F. Sheln, were quietly married at the home of the bride's parents, where there were present only the members of the two immo-

diary families. The impressive Methodist Episcopal ring ceremony was said by Rev. A. L. Marting, pastor of the Fourth Street Methodist church. The rooms were most attractive with a pretty arrangement of pink and white roses, carnations, smilax and ferns. The wedding was beautiful in its sweet simplicity. There were no attendants. The pretty bride looked her sweetest in her handsome three-piece suit of plum color silk, with chiffon waist, hat and gloves of the same becoming color. After the ceremony and congratulations delicious pink and white ice cream, cake and bonbons were served. The white ice cream had pink heart centers, the cakes and bonbons were also in heart shapes in the pink and white adornments. Those present were Mr. and Mrs. E. W. Riegel, parents of the bride, Mr. and Mrs. J. F. Sheln and Miss Barbara Sheln, parents and sister of the groom, Mr. and Mrs. O. Ben Riegel, of Richmond, Ky., uncle and aunt of the bride. The happy young couple left on the afternoon N. & W. train to visit in St. Louis and Cliff Cave, Mo. At the latter place they will be guests of Mrs. B. L. Kahle, sister of the bride, at their pretty summer home for ten days, after which they will return to Portsmouth to make their home with the bride's parents. Both the bride and groom are popular young people. Miss Riegel is a well-known musician, a member of the Ladies' Musicale, and has presided at the organ of the Fourth Street Methodist church for the past year or more. Mr. Sheln is clerk in the men's department in Anderson's store, a young man of sterling traits and one of their most popular clerks. The young couple were the recipients of most beautiful gifts, including a chest of silver, many other pieces of silver, cut-glass, china, linens and numerous other handsome things. May their lives be full of sunshine and prosperity, is the wish of their hosts of friends.

UNITED SPECIALTY CO., Philadelphia, Pa.

Mrs. Paul Esselborn and two children left yesterday afternoon to visit her parents at Sharps, Va., to spend several weeks. Early in the fall Mr. and Mrs. Esselborn will move into the new house Mrs. York is having erected for them, two doors above the house they are now occupying.

Mr. and Mrs. John E. Williams, Evan, Jamie and David Williams, Misses Nell Turley and Martha McGhee, motored to Huntington yesterday and the young people attended the dance at Camden Park.

The first of this summer's outings of the young women of the Y. W. C. A. was held last evening in Millbrook park, where an elegant picnic supper was served to about thirty-eight girls. Mrs. Alan Jordan and Mrs. Mark W. Selby, members of the board, helped the secretaries in preparing the splendid supper. Miss Anna Hennings, general secretary, who will leave Portsmouth the first of August, was given a delightful surprise when Miss Alice Treuthart presented Miss Hennings with a handsome thermos bottle in behalf of the girls of the Y. W. C. A. She is more than delighted with her useful gift. A few lines written by Miss Lucy Scott were read by Miss Treuthart, as follows:

What a blessing it is God has given Such knowledge to wicked mankind To invent an article of so much worth, That is a comfort, both to body and mind.

You'll find it handy both summer and winter, Though the sun beat hot, or there be ice and snow; And, although you carry a bottle, What it contains, other folks need not know.

Miss Hennings is much loved by the girls of the Y. W., as well as by the officers, and many others who have worked with her during her stay in Portsmouth. She will leave Saturday, July 31st, going first to Lake Geneva, where she will spend two weeks with friends at Eleanor Club Camp, on the Lake, after which she will go to Chicago to spend some time at the Moody Bible Institute, and from there will go to visit her sister in Cedar Rapids, Iowa. There are now twenty-four girls in the house, to whom Miss Hennings has become much attached and has thoroughly enjoyed her work among them.

Mr. and Mrs. Gilbert Willis entertained at dinner Sunday at their home on Ninth street in honor of Mrs. Charles Peifer and daughter, Marcella, of Youngstown. Covers were laid at the prettily decorated table for the following: Messrs. and Mesdames William Yeager, daughter and son, Margaret and Pele, John Williams and son Myron, Myron Yeager and children Leroy and Martha, Samuel Stulen and children, Mildred and Richard, and Master Harold Willis.

Miss Clarine Sparrow left yesterday for St. Louis, Mo., to visit relatives for a few weeks, when she will be joined by her mother, Mrs. J. McStay, who will journey from her home in San Francisco, Cal., to meet her, and together they will visit various points of interest during the remainder of the summer.

NEW METHOD MAKES STRAIGHT HAIR WAVY

(Popular Hygiene.) It has been found that a simple and harmless fluid, well known to the drug trade, has a remarkable action when applied to straight, hard, unruly hair. It gives it the appearance of true natural waves. It has also proved a delightful and beneficial dressing for the hair. This product is nothing more than ordinary liquid shampoo, which, of course, anyone can afford to use. A few ounces of it will last a long time. One will not apply it too often, not only because there is nothing sticky, greasy or unpleasant about it, but because it is so easy to use. It is only necessary to moisten a clean tooth brush with the liquid and draw this through the hair from crown to tip. If this is done at bedtime the hair will be beautifully wavy and curly in the morning and will not have that dull, scorching look which comes from the use of a hot iron.

Mr. and Mrs. Philip Wickerham will not go to Gray Gables to camp until the first of August, when Mr. and Mrs. William Mitchell will occupy their house. Mrs. Wickerham will come in for every Sunday to preside at the organ of the Central Presbyterian church.

The Art Circle members and their husbands are planning an outing at the summer cottage of Mr. and Mrs. George Thomas, on Rosemont Road, one day next week, in honor of Mrs. James Patterson, who leaves the latter part of August for Florida.

Mrs. Hugh Edgington and daughter, of Memphis, Tenn., are coming the first of August to visit at the home of Mrs. A. S. Duda and among her other relatives in Portsmouth.

Mrs. A. C. Lauber, of Cincinnati, is the guest of her brother, C. L. Storek and family, at their summer home, "Underhill," in Kentucky.

The regular monthly business session of the Bigelow Methodist Ladies' Aid Society was held Tuesday afternoon in the church.

Mrs. Floyd Fuller and children have gone to Cairo, W. Va., to visit at the home of her parents.

Finis Ernest came yesterday from St. Louis, Mo., to spend a few days with Mrs. Ernest, who is visiting her parents, Mr. and Mrs. L. D. York.

BANNON ROASTS THE 'OLD GANG' AT A BIG M'CORMICK MEETING

Charles McCormick's political machine slipped from low into intermediate and then high gear Tuesday night at a meeting of his supporters held at the county court house. Over one hundred and seventy-five voters were present, pledged their support to Mr. McCormick in his race for the nomination for mayor on the Republican ticket at the primary in August and accepted positions on committees named in each precinct to promote the interests of the candidate.

Hon. H. T. Bannon, who announced his allegiance to the McCormick forces at the meeting held last week, delivered the principal address of the evening. At the outset Mr. Bannon expressed his satisfaction over the results of the meeting held last week and was more than pleased with the audience he was addressing.

But his chief pleasure, he said, came from the discovery of the calibre of the artillery of the opposition forces. Threats of use of large centimeter and Krupp guns by the Kaps forces which had been heard on all sides, prior to the meeting of the Kaps forces in the Masonic Temple had dwindled down to actual use of toy pistols and a box of paper caps, Mr. Bannon asserted.

He further stated: "The McCormick organization is the organization of Scioto county and the other fellows are the kickers. Let's all be for the organization, not be a kicker. The average person has no use for a kicker and I am qualified to testify along that line for I was a kicker myself for a number of years."

"We want to be for the state administration as I know that the state administration is for us. The Kaps forces think that if Kaps isn't nominated and elected mayor of the city the country will never have a Republican president. Understand I am not saying anything to belittle Mr. Kaps. Mr. Kaps is a good man, Mr. Osborne, Mr. Gims and Mr. Gilliland are all splendid citizens. They are all in to win the nomination—but I have heard they threaten to bolt the ticket if not nominated. All of them can't be nominated. If Mr. McCormick is defeated I want this organization to support the winner at the primary and elect him mayor. Get your constituents together, work before the primary, and then if we are beaten let no sore spots remain."

"I understand that Mr. Holcomb is spreading the report about the city that Judge Osborne is the only man who can bring the city out of debt. Such a statement is absurd. We admit the city is in debt. The erection of a new water works and the paving of many streets has increased its indebtedness. Judge Osborne is a competent man. But no one man can reduce the city's indebtedness one cent. It is the taxpayers—the common people who are paying that debt."

"I want to repeat that we hold no ill will against any candidate or his supporters. We are going to beat the whole outfit but if we don't we will support the nominee."

"I want a meeting of Mr. Osborne's business men, Mr. Kaps' politicians and Mr. Gilliland's and Mr. Gims' supporters to get together and say the same thing."

Continuing his address, Mr. Bannon cited what he claimed to be an effort of certain politicians to keep people away from the meeting held in this city, during the last gubernatorial fight, for Willis. A committee meeting was held, he said, in which it was arranged for a notice to be given to the newspapers, soliciting the attendance of the voters at the Willis meeting. But Mr. Bannon stated that the notice never reached the newspapers and other plans made for this meeting were not carried out.

"Men who promised to be there were not present. Mr. Willis came to me and said that he had not received such a cool reception at any other point in the state. He told me plainly that it was a frost. He asked me what was to be done and I told him I did not know."

"It looked hopeless to me. I told him how I appeared to have lost my grip on the boys. But I finally promised to do what I could. We went into that fight and won. We gave Mr. Willis a splendid majority in Scioto county."

"Then some of the other fellows who refused to attend that meeting and made an effort to keep other people away were the first ones to line up at the picnic counter. We don't object to them coming to the picnic counter and getting a slice but we do object to them getting into the trough with their feet and then lying down and wallowing around in it."

"Well, some of the gentlemen who expected to get some splendid jobs from Mr. Willis were disappointed. Such splendid and representative men as Messrs. Devoss, Corson, J. H. Blankmeyer and George Keller were appointed to responsible positions. And that is not all. Within the next few days you will hear of a young man of this city securing a job with the public utilities commission."

"Mr. Walters, Mr. Hard and Mr. Eckhart expected to get big plums at Columbus but they did not get there."

Continuing Mr. Bannon vouches for the ability of Mr. McCormick, stating that he came from a well known and reliable family line, was a staunch Republican, a splendid example of Portsmouth's young manhood and a loyal citizen. He will make a good mayor and one that the citizens of Portsmouth will honor and respect, stated Mr. Bannon.

At a meeting soon to be held Mr. Bannon stated Mr. McCormick had some definite policies which he would outline.

The only other speaker of the evening was Earl Fischbach, leader of the McCormick Club of the Fourth Ward. He headed a delegation of fifty voters who attended the meeting. In his address Mr. Fischbach stated that the McCormick Club of the fourth ward took great pride in that it had been one of the original organizations to endorse Mr. McCormick, that the Fourth ward would do its share toward nominating and electing him and that the selection of Mr. McCormick as their favorite was made after a decision to break away from the old lines and the old system of doing things. Before he closed Mr. Fischbach stated that his organization would support the successful nominee should Mr. McCormick be defeated.

Roy McElhenny acted as chairman of the meeting. Precinct committeemen were named to look after the personal work. It was announced that the McCormick organization expected to place a worker in each block in the city.

A special committee was named to have general supervision of the campaign work.

Before the meeting adjourned all those in attendance were urged to see that any one 21 years of age on primary day August 10, or before, register Friday and Saturday so that they will be qualified to vote at the primary.

Has Fine Pictures

The Tri-State Moose Horn, published at Pittsburgh, contains in its current issue a fine picture of Billy Barron, of this city, who is past dictator of the order, and now attending the national meeting in San Diego, Cal. A splendid picture of the new Moosehorn, the national home of the order in Illinois, is on display at the St. Straus company's store.

Police Wondering If "Ghost" Got Drum

Cincinnati Times-Star of Wednesday morning said:

"For many weeks, in fact ever since the schools closed for the summer, the folks in the neighborhood of Fifth and Mound streets have talked in whispers about the 'spook' that flitted through the lifeless rooms of the old school building at that corner. The police did not incline much to the ghost theory, especially after it was discovered that a bass drum had disappeared from one of the rooms."

Patrolmen Herman and Klump tried to enter the building, but found it locked Monday night. Harry Evans, colored, was finally discovered inside. The officers say they found a key in his possession which, they claim, unlocked the front door of the building. He denied taking the bass drum or any other of the articles that were reported as missing from the building."

appeared from one of the rooms.

FLASHES FROM THE REAL CENTERS OF SPORT

IRONTON GRABS FIRST GAME FROM PORTSMOUTH

WITH Pitcher Meyers working in high class style all the way Ironton won the opening game of the second half of the Ohio State league season at Millbrook Tuesday afternoon. It was a well played game despite the little miscues that crept into it and the final was a 4 to 1 affair.

Several times it looked promising for the home team to draw up alongside of their adversaries, but it was on occasions of this kind that said Mr. Meyers would tighten up and cause the succeeding batters to go out on easy chances. Take for instance the ninth inning. Caton opened it by drawing a pass and Jacobus beat out a hit to Stedfeldt, putting two on with no one down, but Spencer and Bush lofted to Calbert and Ferguson, pinch hitting for Test, sent a roller to Ollom and he tossed out the local hothead for the final out.

Ironton scored a brace of three runs in the third inning on three clean hits and a base on balls. Stedfeldt opened the inning with his second hit. Taylor struck out but Calbert drew a pass and he and Stedfeldt scored when Gilmore planted a line drive between Sharmann and Jacobus for three sacks. A moment later Gilmore raced home when Perry batted one over Stedfeldt's head. The other Ironton rally came in the fifth when Taylor stopped a pitched ball with his club, stole second and scored on Gilmore's second hit, the center fielder driving in three of Ironton's runs.

Portsmouth's consolation rally came in the fourth inning when Dilly reached first on Perry's muff of his high fly and Sharmann's double, Sharmann being caught trying for third.

It was an ideal day for baseball and the players enjoyed a lot of life into their work. The same teams will battle again today. The score:

FIRST BATTLE WAS CORKER

That was some opening game staged down in Mayville Tuesday.

That city returned to organized baseball by witnessing a 1 to 0 game, Charleston being on the long end of it. It was a great pitchers' battle between McGraw and Henderson. Mayville pulled off a lot of opening day festivities and it's re-adoption of first class baseball was all that could have been desired.

Reds Lose 6 to 2

CONNIE MACK SELLS MURPHY TO CHICAGO

Eddie Murphy of the Athletics has followed Eddie Collins to the White Sox, making the fourth member of the 1914 American league pennant winners to be sold by Connie Mack since the present season started. Pennock, Shawkey and Barry were the others.

A FEW PICKUPS AND GROUNDERS

The game was over so far as Portsmouth was concerned when Gilmore tripped to the center field fence.

One of the features was Taylor's catch of Spencer's high fly near the grandstand.

Ollom was back at second for the Naiters and played his usual good game. He failed to get one safe.

McHenry enacted the role of pinch hitter in the eighth and drew a walk.

Test pitched the ninth inning and the Naiters went out in order.

Calbert misjudged Sharmann's liner, which went for two bases. He came tearing in for it and the ball sailed over his head.

Some of the fans disagreed with Umpire Colgate and they kept after him all through the game.

Ironton plays here today and on Thursday. Then the team will probably go home and play four games with Portsmouth.

Dillhoefer has acquired a new position at the plate. He is practicing the art of hitting under it.

Few fans are aware that until this season Sharmann was a third baseman. He played just a few games in the outfield last year.

After New Players

(Irontonian)

Manager Eddie Taylor, of the Naiters ball club, has announced that he is making desperate efforts to secure a pitcher from the Major League.

The rivalry for good Major League players is so intense in this city in the Middle West, that it is a city in the Middle West, that it is a city in the Middle West.

Lyme For Edler

Pitcher Lyme of the Cincinnati Braves has been traded to Charleston. Pitcher Edler, who worked three innings against Portsmouth Monday.

WOULD HELP SOME

Cincinnati reports here that the public schools of Garry Herrmannville are to provide a course of instruction in the art of umpiring.

Whether this is due to the plaints of Fielder Jones and John McGraw is not known, but both have said that the decisions rendered on baseball fields this year are the worst ever—and then some.

Billy Hart and Billy Carpenter will be the professors in charge of classes and diplomas attesting eagle eye discernment may be expected.

M'GRAW WILL USE DOGIN

Manager McGraw is going to use Red Dogin, secured from the Reds, regularly behind the bat. It is said that McGraw is about through as a big league catcher. Fans said the same thing about Matty three or four years ago.

MISTAKE SMOKE OF YACHTS WATCHING RACE FOR THAT OF GERMAN LINERS

How They Do It Up In Canada

Umpire Colgate was an ump in the Western Canada league last year. Up there they play two games every Saturday, the first starting at two o'clock and the second at 6:30. The fans go home to supper and if they wish to see another game they hike right back to the ball yard.

"When the home team wins practically every fan returns to see the second one and the arrangement works out handsomely," said Colgate Tuesday. "The town in which I opened last year had 6,400 paid admissions and all tickets sold for \$1. The league did not open this year on account of the war but the territory was kept open by the National Commission."

IRON MAN SOON TO PITCH AGAIN

Iron Man Jack Coombs, Brooklyn pitcher, who pulled a tendon in a recent Brave game, isn't seriously hurt, and will be back in the game soon.

Examination showed the Iron Man had injured the "tailor's muscle" in his leg, a common hurt among athletes. It was first feared his injury was a return of an old hurt, received at a world series game at the Polo grounds, which kept Coombs long out of the game.

THE NAILERS LOOK FINE

The Ironton team as it lines up today should finish well up in the second half as the native strength is there.

Manager Shockey Taylor has harmony on the club and he and his players firmly believe that the Irontonians will cop the pennant of the second half and play off a post season series with Portsmouth. In Stedfeldt, Perry, Calbert, Gilmore and Ollom Taylor has a quintet of classy ball players.

Takes Second Floor

The entire second floor of the Carr building has been taken over by H. T. Hatton, he moving his offices from the rear part to the front. The floor has just been remodelled.

M'LEAN DRAWS RELEASE

New York, July 21.—Larry McLean, the veteran catcher of the New York Nationals, who was serving a sixty day suspension for misconduct in St. Louis was unconditionally released today by President Hempstead. It was stated that McLean was released so Manager McGraw could play Babbington an outfielder of Brown university.

WELL FANS, THEY'RE OFF

Well fans, Ironton, Charleston and Lexington are away in front. The split season is going to work out handsomely as it will enable the second tier teams of the first half to get out in front in the second half. There will be a renewed interest all along the line and from now on the classy little Ohio State league is going to come into its own.

Bets On Red Sox

As soon as this or that club rushes to the front some gink hauls out his wad and waxes it defiantly in the face of some one.

Yesterday a Boston fan bet \$1,000 even money that the Boston Red Sox would win the American league flag. This means that he has picked Boston against the field and the team must beat out the White Sox and Detroit.

WON EVERY SERIES

During the first half of the season Portsmouth won the series from all the teams in the league, Frankfort winning but two games from Portsmouth.

The team won a large percentage of games on the road and was the best club the city has ever had so far as winning on foreign soil is concerned.

CUP DEFENDER RESOLUTE NEAR RECORD

"Resolute" heading for the mark off Ambrose Lightship.

The cup defender "Resolute" almost set a record for the cup course when she beat the "Vanitie" in the first trial, doing 15 miles to windward in 8 hours 29 minutes 30 seconds, which has not been exceeded since 1893.

Today's Program On Grand Circuit

Cleveland, July 21.—With weather indications good the rest of the week, race-goers looked upon today's Grand Circuit program as the banner one of the week. The program includes the 2:31 trial, the 2:15 pace, the 2:00 pace and the Ohio Stake for 2-year trotters.

Loud Lumine was touted to win the 2:15 trial. Itella E. seemed to have the call in the 2:15 pace. Peter Scott was favored in the Ohio Stake while Fred W. Trefell and Major Jorg were a toss-up in the 2:00 pace.

Negro Released

Ed Werner was the name given by a strange negro who was fined \$5 in police court Tuesday for disorderly conduct. A couple of colored women appeared to prosecute him but the case had already been disposed of.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

PROMISE TO COMPLETE WATERWORKS WITHIN THE COMING SIXTY DAYS; SAY SPECIFICATIONS O. K.

Conferences of the past few days resulted in representatives of the city and the John H. McGowan company reaching a definite understanding Tuesday night as to what changes and additions are required to place the different units of the city pumping station in proper working shape.

After it was unmistakably impressed upon the McGowan company that the city under no circumstances would spend any more of its money or be drawn into an approval of any changes in the plant in order to help out the company which has been unfortunate in getting its three units, the steam end, turbines and transmission, to operate satisfactorily, the representatives gave their word to at once get busy and make everything right and have the plant in proper working order within sixty days.

The city officials emphasized their stand by declaring they were interested solely in getting 4,000,000 gallons of water on the hill between the minimum and maximum capacity without straining the service and did not care how it was done but just so it was done.

Engineer J. F. Witmer and W. W. Watson, representing the city, went over every detail of the plant, starting with the boiler room, with the McGowan representatives and found some things that were right and others that had worn out from usage and it was decided to correct these without changing the specifications.

The city engineers and board of control members at a meeting Wednesday morning decided that there remained nothing further for them to do but simply to await developments. They have the promise of the McGowan company to go ahead and get the plant in shape and as one expressed himself: "I'm going to quit talking water works and simply await results."

Mr. Witmer in discussing the situation at the meeting attributed the mistakes made to over-confidence and insufficient care in installing the little odds and ends. He said the conditions were not uncommon and the specifications had been purposely left broad enough to let bidders or contractors work out their own salvation. All bidders at the time agreed that an installation could be successfully made under the specifications.

He said it would prove a rather expensive proposition for the McGowan company to install the necessities for remedying the consumption of steam, overtaxing of boilers, correcting the heaters, etc. Once these have been completed the city will make tests and the matter of accepting the plant will then be taken up.

Mr. Witmer said the main thing would be the taking out of the heaters on the high duty pumps which will increase the efficiency of the operation. Large air chambers will be placed on the suction head lines next to each pump so as to eliminate the effect of the surge tank and allow the valves to snap more efficiently and increase the efficiency of the

Two four times capacity air chambers have been placed for the discharge and two more are on the ground to be installed. The guy bearings will be changed to babitted instead of ball bearings on No. 1 turbine and if satisfactory No. 2 turbine will be similarly equipped. In order to get higher vacuum on the turbine pumps the pump in the basement will be reconstructed. The heaters on the low duty pumps will be repaired with heavier tubes. It is also intended to stop the leaks at the stuffing box. Many other minor details will be corrected and the city officials are hopeful that the work will be completed in less than 60 days time.

The mayor felt that the coal hoist will have to be changed later as it operates slow and is hard on the men having it in charge. He believed it should be controlled from the floor. Mr. Watson said he had taken observations and found the hoist can make a round trip and carry 50 pounds of coal in five minutes or 22 tons in seven hours without any strain, and that it operates satisfactorily for comparatively inexpensive apparatus.

When you wash your hair don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulished coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soap or anything else all to pieces. You can get this at any drug store, and a few cents will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dirt, dandruff.

Mr. Edwin Francis Week of Bradford, Va., and Miss Bessie Conroy, of Ashland, Ky., were married this morning at ten o'clock, at the home of Rev. T. H. McAfee, pastor of the First Baptist church.

Mr. and Mrs. M. W. Brown and Mrs. Emma Fynn have returned from a visit with friends in Dayton and Columbus.

The last of this summer's meetings of the Second Street Whist Club was held yesterday afternoon at the home of Mrs. Charles Hall, on Second street. Mrs. J. H. Varney and Mrs. Wells Hutchins played in the places of the absent members.

SOCIETY

Mrs. Philip Pfarr delightedly entertained the members of the Woman's Home and Foreign Missionary societies of Manly church yesterday at her pretty country home, "Happy Hollow," at Slucum Station. An interesting program was rendered in the afternoon by Mrs. Clarence Warman, Mrs. Pfarr, Mrs. Albert Leichter, Mrs. Albert Reiser, Mrs. Scott Winters and Mrs. Geo. Chabot. Among others present were: Mesdames John Davis, R. E. Sutton and children, Edna and Clara, W. M. Swadby, Albert Reiser, Sam Langdon, C. E. Nourse, E. F. Rideout, Crayton McCoy and two children, Clyde and Stanley, Mrs. Greene Neary and grandson, Donald Stewart, Emory Riekey, J. H. Chabot, W. L. Sarver, Aaron Clark and children, Julia, Lawson and Wayne, Ed Brady and son, Wayne, George Luther, J. H. Bornhold, J. O. McNamara, Charles Shels and son Charles, Mary Warner, Greenwood Winters. Guests were Mrs. Clifford Spray and son Chellis, Mrs. Sophia Yeley, Mrs. John Dodge, Mrs. Arch Busa and children, Arnold and Willard, Mrs. Laid and Mrs. Frank Hall, of Happy Hollow, and Mrs. John Sowers and granddaughter, Fern Curry Wheeler, of Portsmouth.

Miss Lorraine Schlichter's guests, Mr. and Mrs. Albert Wagner, have gone home to Silverton, Cincinnati, accompanied by Miss Schlichter.

Mr. Stanton Shels, who was married to Miss Maud Riegel at noon today, treated the young women of Anderson's store to delicious candy today. The girls of the store are all very fond of Mr. Shels and very much appreciated the treat. Mr. Shels is popular with everyone in the store, as well as among the customers who visit the store. The clerks in the store presented him with a beautiful cut-glass compote.

Mr. and Mrs. J. J. Conner and two children, Thomas and Harry, of Grandview avenue, leave tomorrow for Wrightsville Beach, N. C., where they will be joined by Mr. Conner's sisters, Mrs. A. J. Palmer and Miss Jennie Conner, of Athens, Ga.

Miss Evelyn Reed will leave the last of this month to visit school friends in East Aurora, N. Y., and later will visit friends in Corry, Pa.

The entertainment provided by the good women of Section Four of the First Christian church Tuesday night, at the home of Mr. and Mrs. S. P. Manley, 1608 Seventh street, was a most enjoyable success, upwards of fifty people attending. Mrs. Musser and Mrs. Wales formed the committee that had charge of the affair and were warmly felicitated upon the success of the undertaking. The various sections were well represented and the affair was one of the pleasantest in the annals of the church. The cake and lemonade provided for the guests added a whole lot to the pleasures of the evening, as did the solos by Mrs. Les Startzman and the recitations by Miss Marjorie Gerlach. The bright little sons of Mr. and Mrs. Dennis Thomas brought down the "house" in the recital of their declamations.

The people of Portsmouth are most cordially invited to attend the public meeting to be given under the auspices of the West Portsmouth W. C. T. U. at the First Christian church Thursday evening, July 22. This meeting is called in an effort to organize the young people for work during the coming "wet" and "dry" campaign. Mrs. Guthrie, of Cleveland, state organizer, will be present and deliver the principal address. A short program will be rendered preceding the address by Mrs. Guthrie. The Loyol Temperance Legion will have charge of the singing. Let everybody interested in the campaign be present.

Mrs. J. H. Wilson and her two charming daughters, Misses Flora and Florence Wilson, have returned from a pleasant two weeks' visit with friends and relatives in Columbus.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, is troublesome. An easier way is to get the ready-made tonic, coming about 50 cents a large bottle, at drug stores, known as "Weyb's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not awful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyb's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You do it by drawing this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Bring back color, gloss and thickness with Grandma's recipe of Sage and Sulphur.

ORDINANCE Number 2161

Tells Rheumatism Sufferers to Take Salts and Get Rid of Uric Acid.

Rheumatism is no respecter of age, sex, color or rank. It is not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should, at least, meet dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

Forget These Hot Days In Recollecting "Good Old Winter Time"

COLD WEATHER MEMORIES

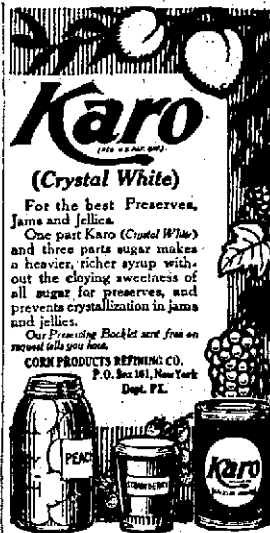

Send in Your "Cold Day" Experience To The Times

The coldest day I ever experienced was February 20, thirty years ago, when my mother died. There was a funeral of a man on that day and when they reached the graveyard the man on the hearse was as dead as the man in the coffin. I was so frightened that when we reached the church with my mother's funeral all I prayed for was for God to spare the lives of those who attended it, as I would not have attempted to attend any one else's funeral.

MRS. NORA ENGELHARDT.

"The coldest day I ever remembered was back in 1882 when the mercury skidded down to 28 degrees below zero," said Attorney Henry T. Bannan, Wednesday. "I remember the day vividly because all I did was to sit around the fire all day. A blanket of snow covered the city and the day was bitterly cold and I have never forgotten it. The thermometer on Nannon Hill registered 28 degrees below zero on this day."

"The coldest day to my recollection was on December 24, 1872, when I rode from Hanging Rock to Sciotoville in a bus. It was so cold on reaching Sciotoville that I got out of the bus and walked the rest of the way to the city," said John Blankmeyer, of Fourth street, Wednesday. "There was a heavy snow on the ground and wind almost whipped the passengers in the bus to death."

JOHN L. GRIMES PROMOTED, WILL GO TO WHEELING

It was announced Wednesday that the advertising departments of the Whitaker-Glessner company of this city and of the Wheeling Corrugated company of Wheeling had been merged and that the business of the two firms would be carried on from the Wheeling office.

John L. Grimes, who for two years has been in charge of the advertising department of the local company will be placed in charge of the Wheeling office, the change being in the nature of a splendid promotion to Mr. Grimes, who has had much experience in the advertising field.

Mr. and Mrs. Grimes' friends will regret to learn that they will move to Wheeling shortly. Mr. Grimes to take up his work there on August 1. Mr. and Mrs. Grimes recently went to house-keeping at 1816 Timmonds avenue.

Mr. Grimes expects to visit Portsmouth once a month on business for his firm when located in Wheeling.

KENTUCKY CARLSBAD SPRING'S FAMOUS MINERAL WATER. NATURE'S GREAT REMEDY

This famous water is pumped from the earth 100 feet deep. It is a dark greenish color, entirely free from organic matter, with wonderful medicinal properties. Hundreds of cases of rheumatism, Stomach, Kidney, Liver and Bladder troubles have met their Waterloo by drinking this water. Just as it is drawn from the earth, you can get the same results by drinking it at your home. It is not convenient for you to come to the spring, as you can get it from your druggist. If he hasn't it, have him to order it for you, or you can order it yourself direct from the Springs. Understand, it is sold with a guarantee. If you do not get the desired results within ten days, you have your money back. The one that sold it to you will return you all the money you have paid for it, for all the above mentioned diseases excepting rheumatism. Rheumatic cases must come to the Springs to take the water in the same way to get entirely relieved. Our Spring is thirty-five miles from Cincinnati, Ohio, on the Q. & C. railroad.

Be sure and write us for one of our free booklets as it will give you a great deal of information and you can see what it has done for others. For sale by all druggists.

Members of Magnolia Lodge Knights of Pythias have about completed plans for a big house warming in their new hall at Third and Chillicothe streets Monday night, July 26. The program is in charge of George Swabby. The Pilgrim Singers have been engaged to sing and the house warming will be attended by Pythians, their families and friends.

TO INCREASE OUTPUT

The Ironton Irontonium of Wednesday morning said:

"From very reliable sources comes the information that in the very near future the Ironton Engine plant will take on new energy, that there will be an increase of working force and output."

"W. B. Alfice, who founded

the plant and one of the largest stockholders from Chicago was here to attend a meeting of the stockholders, and it is understood that a Mr. Hall of Chicago proposes to lease the plant and will engage in making altogether different kind of machinery from that which is now being made."

S. OF V. HOLD A SPLENDID MEET

Vienna Camp Sons of Veterans at a splendid meeting Tuesday evening decided to attend the Harrisonville reunion and homecoming Tuesday, August 17 in force. The camp plans to go into camp on the ground with colors, guns, tents and their splendid drum corps and with their Bolo Boilo degree team they will be in position to entertain friends.

The fine Auxiliary of the camp and wives and daughters of members will assist. They will also help lustily to whoop things up for Lois Camp and the good old Vets of Scioto Post G. A. R., and do what they can to assist in making the 36th annual reunion one of the best of a great series.

Commander Skelton appointed the following committee to have charge of arrangements and transportation: David P. Scott, George S. Carroll and Harry M. Sickles. All the fellows are enthusiastic over the outing.

Vienna Camp will in the near future be beneficial as well as fraternal and patriotic.

Resolutions were introduced last night to form a mutual benefit association, and this met with unanimous approval. The camp plans to pay a weekly sick benefit of \$5.00 per week. It already has a death benefit of \$250. One of the best among orders. The new association will be formed at once. Harry M. Sickles, Gilbert Dodds and Charles C. Bennett

have the matter in charge and they are to bring in report at first meeting in August.

The new by-laws of the Camp which have been up for passage the past several weeks were formally adopted and will be in full force after approval by Division Commander, T. E. Long, of Dayton. The committee which drafted the new by-laws, Harry M. Sickles, Gilbert F. Dodds and Charles C. Bennett, were given a rising vote of thanks.

The past quarter was one of the best for years, and the Camp made a nice gain in membership and prestige.

Mrs. Wilcox Hurt.
Mrs. Allen Wilcox, of 511 Officers street, fell Monday afternoon at Second and Gay streets, badly bruising her right limb. Girls from the Y. W. C. ITCHING ECZEMA COVERED ENTIRE BODY, RESINOL CURED

Could Not Sleep, 8 Remedies Had Failed, Resinol Stopped Itching Immediately.

Boston, Mass., Aug. 11, 1914.—"My entire body, even my eyelids, was completely covered with blisters as large as a pea. When one would burst water would come from it, and then it would turn into a very painful sore. The burning and itching were something terrible, and I COULD NOT SLEEP nor rest. I think I had one of the worst cases of eczema a human being ever had. I used eight different kinds of remedies without success. I then tried Resinol Ointment and Resinol Soap and it stopped the itching IMMEDIATELY. I gradually noticed a change for the better. Now I am entirely cured, and am without a plaque or blemish on any part of my body." (Signed) Edward P. McCallough, 249 River St., Mattapan, Resinol Ointment, and Resinol Soap heal skin eruptions, clear away pimples, and form a most valuable household treatment for sores, burns, etc. Sold by all druggists.

RUSSIAN ARCHIVES MOVED FROM RIGA AS GERMANS ADVANCE

Berlin, July 21.—(Via London).—A dispatch to the Lokai, Anzeiger from Czernowitz, capital of Bukovina, reports heavy fighting along the Dniester river, near the Bukovina-Galicia border. The Russians brought up heavy reinforcements and made determined attempts to retake positions in the left bank of the river which had been captured by the Austrians. They were supported by heavy artillery, but the dispatch says the attacks gained them nothing. Along the Bessarabian front also the Russians are on the offensive, having made desperate attacks during the last fortnight. They succeeded in breaking

MEXICO CITY AGAIN OCCUPIED BY ZAPATA

Washington, July 21.—Further developments in the rapidly changing events at Mexico City were anxiously awaited by officials here today. The Mexican capital is again occupied by Zapata forces, the city apparently is once more isolated from telegraphic communication with the outside world and railroad communication with Vera Cruz is suspended. These are the latest developments in Mexico City as disclosed in official reports to the state department. Relief measures for the hungry civilian population of the Mexican capital have been halted in consequence of the suspension of railroad communication and the situation is

OLD AGRICULTURAL BOARD DIES TODAY

Columbus, July 21.—This will be the last day of existence for the Agricultural Commission, created less than two years ago, and to be replaced tomorrow by the new Board of Agriculture, consisting of 10 members, more than half farmers, appointed by Governor Willis. Those who go out of office this midnight are: A. T. Sandles, president of the Agricultural Commission; S. I. Stride, member in charge of food division; C. B. Williams, agriculturist at the experiment station; and H. F. Gaynen, secretary of the commission. Homer Price, retired from membership on the commission several weeks ago

DARK COLORS WILL RULE DRESS GOODS

New York, July 21.—Dark colors will be popular in dress fabrics this fall, according to the prediction of F. B. Hoagland, of the Textile Color Card Association. Mr. Hoagland reported the color selections by experts to a meeting of the jobbers' Association of dress fabric buyers here yesterday. The selections were made from more than 2,000 shades of cloth received from all parts of the United States. The card was approved by the association.

ENGINEER IS INJURED

Toledo, July 21.—Edward Yoder, 45, stationary engineer of Washington, near Salem, was probably fatally injured last night when an automobile in which he was riding to Toledo ran into a ditch and turned turtle near Mobile.

BECKER SENDS PLEA, HAS NEW EVIDENCE, WANTS NEW TRIAL

New York, July 21.—Counsel for Charles Becker awaited today the result of Becker's application to Governor Whitman to forbid his execution on July 26 for the murder of Herman Rosenthal. Becker's plea sent to the governor at Albany last night included a long statement of his version of the facts leading up to the murder. In this statement Becker denied complicity in the murder and said that State Senator Timothy D. Sullivan, now dead, had told Becker that he had \$12,500 invested in Rosenthal's gambling house and that when Rosenthal began to make public statements about the raids on his place, Sullivan exacted a promise from Becker to keep Sullivan's name out of it. Becker said that he had kept his promise up to the time of the making of his plea for executive clemency.

NEW NOTE WILL HOLD GERMANY RESPONSIBLE

Washington, July 21.—Secretary Lansing was today perfecting the note to be sent to Germany by the United States on submarine warfare. The character and purposes of the communication had been agreed upon at yesterday's cabinet meeting, and all that remained today was to put it in shape for transmission to Berlin. The note will be firm, yet friendly, in tone and will renew the efforts to secure for American citizens protection on the high seas. It likely will hold the German government responsible for any actions in the future that might endanger the friendships between the two nations. Just when the communication will be dispatched to Germany is not known, but it will not be delayed because of the German submarine attack on the British liner Orduna. Official information as to the circumstances of the attack still was awaited at the state department today.

RUSSIANS DESTROY FLEET

Petrograd, (Via London) July 21.—The following official communication has been received from the headquarters of the Russian army in the Caucasus: "Our destroyer flotilla destroyed a fleet of 69 Turkish sailing vessels laden with flour. "A battle is raging in the direction of Mush (Asiatic Turkey) 85 miles southeast of Erzerum. We captured Nazyk in the course of the fighting."

ROOSEVELT DAY AT FAIR

San Francisco, July 21.—This is "Roosevelt Day" at the Panama-Pacific Exposition. Col. Roosevelt, former president of the United States, is on the program to make two addresses, participate in a tree planting ceremony and be the guest at a reception. Mr. Roosevelt's first address of the day is for the members of the army and navy. His second address was to be on "War and Peace," which he said, on arriving here last night, might just as well be called "Damn the Hologedies." Tonight Mr. Roosevelt is expected to witness the second storming of San Juan hill, depicted in fireworks.

FRANK'S RECOVERY CERTAIN

Milledgeville, Ga., July 21.—Marked improvement in the condition of Leo M. Frank, whose throat was cut Saturday night by a fellow convict at the state prison farm here, was announced today by physicians attending him. His temperature was 100, the lowest since Sunday, and his pulse and respiration were practically normal. The physicians say that while he is not yet out of danger his recovery now is practically certain.

WALES COAL STRIKE OVER

London, July 21.—The South Wales coal miners have accepted the terms agreed upon yesterday, and the strike is therefore definitely at an end. Throughout the coal fields there was an overwhelming majority in favor of the settlement.

MOB ATTACKS GUARDS AT STANDARD OIL CO'S BAYONNE FACTORY

New York, July 21.—Serious rioting occurred around the plant of the Standard Oil Company of New Jersey at Bayonne, where a strike is in progress early today when a mob encountered the guards there. In the fighting that followed three of the rioters were wounded by pistol shots fired by the guards. The men were taken to a hospital. Their wounds were not serious.

New York, July 21.—Seventy-five deputy sheriffs, 150 special policemen and a large squad of Bayonne police guarded today the plant of the Standard Oil Company in Bayonne, N. J. The plant was closed yesterday after a strike of several hundred employees was followed by riots. Between five thousand and six thousand men are thrown out of work. The Bayonne commissioner of safety has ordered police horses to mount his men on duty about the buildings. The strikers issued a statement saying they had gone out only to obtain better working conditions and to enable themselves to educate their children. The Standard Oil Company issued a circular addressed to its employees attributing the strike to professional agitators and declaring that the company will deal directly with its employees only and will consider no ultimatum demanding an answer within 24 hours such as was presented by the men. It was said that oil could be pumped to the Bayonne works from Philadelphia and that the company could import barrels from its plants in Rochester and Minneapolis while the strike continued. Six oil tank steamships which were loading at the piers in Bayonne when the strike began had been moved to anchorage in the harbor today as a precaution.

PICKETS STOP MEN AT REMINGTON PLANT

Bridgeport, Conn., July 21.—Labor leaders announced today that pickets stationed in front of the Remington Arms and Ammunition Company's main plant had stopped eighty skilful mechanics on the day shift from going to work. The pickets went to the plant soon after daybreak and remained there several hours. Every machinist that appeared ready for work was taken aside and talked to by the pickets. The labor men admitted that not all of the men approached had stayed away from work.

BRIDE OF 'HONEYSHUCK' STOPS IN TOLEDO

Toledo, July 21.—Mrs. James M. Thomson, formerly Miss Genevieve Clark, daughter of Champ Clark, speaker of the National House of Representatives, in company with her husband, spent part of yesterday and last evening in this city at the home of friends of the Clark family. Not a dozen Toledoans knew of the sojourn here of the bride of "Honeyshuck." The Thomsons are on their honeymoon and left late last night for the East.

"I just made dad agree with me on this suffrage question," she said. Elmer Fetter, an experienced salesman has accepted a clerkship in the Salvage store.

FLASHES FROM THE REAL CENTERS OF SPORT

IRONTON GRABS FIRST GAME FROM PORTSMOUTH

Will Pitcher Meyers working in high class style all the way Ironton won the opening game of the second half of the Ohio State league season at Millbrook park Tuesday afternoon. It was a well played game despite the little misuses that crop into it and the final was a 4 to 1 affair.

Several times it looked promising for the home team to draw up alongside of their adversaries, but it was on occasions of this kind that said Mr. Meyers would tighten up and cause the succeeding batters to go out on easy chances. Take for instance the ninth inning. Caton opened it by drawing a pass and Jacobus bent out a hit to Stadfeldt, putting two on with no one down, but Spencer and Bush lofted to Gilbert and Ferguson, pinch hitting for Test, sent a roller to Ollien and he tossed out the local boxman for the final out.

Ironton scored a brace of three runs in the third inning on three clean hits and a base on balls. Stadfeldt opened the inning with his second hit. Taylor struck out but Gilbert drew a pass and he and Stadfeldt scored when Gilmore pitched a line drive between Sharman and Jacobus for three rocks. A moment later Gilmore reeled home when Perry bounded over Ollien's head. The other Ironton rally came in the fifth when Taylor stopped a pitched ball with his ribs, stole second and scored on Gilmore's second hit, the center fielder driving in three of Ironton's runs.

Portsmouth's consolation tally came in the fourth inning when Billy reached first on Perry's miff of his high fly and Sharman's double, Sharman being caught trying for third.

It was an ideal day for baseball and the players enjoyed a lot of life into their work. The same teams will battle again today. The score:

A FEW PICKUPS AND GROUNDERS

The game was over so far as Portsmouth was concerned when Gilmore tripped to the center field fence.

One of the features was Taylor's catch of Spencer's high fly near the grandstand.

Ollien was back at second for the Nailers and played his usual good game. He failed to get one safe.

McFerry enacted the role of pinch hitter in the eighth and drew a walk.

Test pitched the ninth inning and the Nailers went out in order.

Calbert misjudged Sharman's liner, which went for two bases. He came tearing in for it and the ball sailed over his head.

Some of the fans disagreed with Umpire Colgate and they kept after him all through the game.

Ironton plays here today and on Thursday. Then the team will probably go home and play four games with Portsmouth.

Bilfinger has acquired a new position at the plate. He is practicing the art of hitting down on the ball instead of tating under it.

Few fans are aware that until this season Sharman was a third baseman. He played just a few games in the outfield last year.

The poor old Reds, down they go. They dropped another to the Boston Braves Tuesday, 6 to 2. Here is the boxscore of yesterday's game:

A REMARKABLE CHARACTER.

Judge Bradbury, who died at Portsmouth a few days ago, was one of the most remarkable and interesting figures in Ohio's history. In the course of an active career that began in 1835 when as a boy of 17, after having been an agent of the Underground Railway and helped runaway slaves to freedom, he ran away to Kansas to help make that state free, he played many parts on the stage of life. He remained in Kansas two years, leading a wild and adventurous life as one of the "soldiers" who made periodical raids on the slavery adherents under the leadership of John Brown and of Gen. James H. Lane. He voted for the Topeka or anti-slavery constitution of Kansas in 1857. In August of the same year he became a volunteer in the army that was sent to subdue the Mormon rebellion, serving for two years in Utah and marching into Salt Lake City behind General Albert Sidney Johnston. Discharged from the army in June, 1859, he joined an exploring expedition sent to Fort Walla Walla, Washington, territory, under command of Major Reynolds.

In the spring of 1860, at the age of 22, young Bradbury drifted down into California, where for four years he worked in the gold mines or prospected for gold on his own hook. In 1864 he returned to Ohio and enlisted in the 140th O. V. I., serving until the close of the civil war.

It is interesting, too, that on his return trip from California Judge Bradbury came by ship from San Francisco to Panama City, crossed the Isthmus by the trail through the valley where is now the big canal, traveling by foot, and from Colon sailed to New York City through the Caribbean Sea, Gulf of Mexico and the Atlantic Ocean on a sailing vessel.

And then in 1866, this man who with all his varied experiences was only 28 years of age, was admitted to the bar, beginning practice at Painesville, which city ever after claimed him as her first citizen. Two years later he was elected prosecuting attorney of Meigs county, serving four years. He became prominent as a Republican leader in his section and through an alliance with General Grosvenor, just entering upon his long career, he reaped substantial rewards. He became common pleas judge, then associate justice of the state supreme court, then chief justice, serving long years on the bench with distinguished success. Upon his retirement from the supreme bench he was elected common pleas judge for his old district, and was serving in that capacity at the time of his death.

Judge Bradbury was of distinguished lineage. He came from a family noted for its intellectual gifts and for its fighting ability. The American branch was descended from Thomas Bradbury who came out to Maine in 1634 as the representative of Sir Ferdinand Gorges, proprietor of the province of Maine. From Maine Thomas Bradbury moved to Massachusetts where he became a judge of the provincial court, but which did not prevent his wife, Mary Perkins, from being tried and convicted of witchcraft. His influence, however, saved her from the usual punishment inflicted upon witches. Succeeding generations played active parts in the destinies of the communities in which they lived, all being successful in various lines of endeavor.

What a wonderful, what a varied record, was that of Judge Bradbury. Who would not envy him his association with John Brown, his march into Utah when Mormonism was at its militant height, his explorations of Washington territory, his experiences in prospecting for gold, his later relations with the men whose names are written large on the nation's pages of history. It represents an age of Americanism that has passed away, an age with which Judge Bradbury was one of the few remaining connecting links, an age that makes our own look dull and prosaic in comparison.

As to the personal characteristics of Judge Bradbury, we are indebted to Editor Sibley, of the Gallipolis Tribune, who knew him well and who in the course of an editorial review said among other things:

"The late Judge Bradbury had a physique that would attract attention anywhere, with a habit of throwing up one shoulder at intervals that excited comment. His face was carefully trained to mask his thoughts, even his eyes seeming to be under such control that he could keep them cold and inexpressive when passionate emotions were stirring behind them. His abundant and shaggy beard, retained in an almost beardless generation, made him a conspicuous personage wherever he went. He possessed physical dignity of a rare type, and it was no inconsiderable asset in an active political career extending over forty or more years.

From the time we came to know him first (his was one generation in advance of ours) we saw in him a most capable leader in the game of politics. With masterly adroitness he played it to breed strength for himself where there was weakness. He could appraise a political situation with great accuracy, and participate actively in it in such a way as to satisfy his friends and placate his enemies. There was nothing of discredit to him in this. He went just far enough, and did not stop over. His enthusiasm never ran away with his reason, and his vision of what was coming in the game was rarely at fault. He was never a quitter, but he was always prudent in his moves.

After a few years on the Common Pleas Bench his strength

Oh, had some power the gift give us,
 To keep those cool spells longer with us.

as a judge, together with the integrity and justice which marked his decisions, brought him great favor from the people of all parties, over and beyond anything his political sagacity and party allies could win for him, and that favor became the towering superstructure, so to speak, which, resting on the solid foundation of the ever-ready support of Gallia, Meigs and Athens counties, attracted to him the promotions which finally made him Chief Justice of Ohio. Without it he would have gone down time and again, for he was the subject of much personal criticism, wholly apart from his official service, which was uniformly well done.

So long as Judge Bradbury performed his public duties ably and well, he regarded his private life as nobody's business, but his own. Living in a town whose people are largely Germans, he fell into their recreations and enjoyed them. A game of pinochle and a mug of beer with his fellow-townsmen who liked them, was his habit for forty years, no matter how his public honors grew in importance or distinction. He enjoyed a game of poker and he liked a drink, and he took them both off duty, in utter disregard of a sentiment that would have wrecked the political prospects of a weaker man.

From the frequency with which those inland towns in Ohio are getting flooded out, we have come to the conclusion that from a flood standpoint, Portsmouth is a lot more desirably as a place of residence. True we have floods, but we only have them at a certain season of the year and at that only occasionally. While with Lima, Marion, Delaware, Kenton, Dayton and others they are liable to be drowned out every time a two by four rain comes. Which shows the advantage of being located on the banks of a real river rather than a Jim Crow sort of an affair.

New York, July 21.—The pug dog, so dear to the grand dames of Fifth Avenue in the days of low-necked backs, has passed. Does anybody know where a single puglet can be found? Living or dead? (Silence—waiting for an answer.) No! We told you so. A famous Gotham taxidermist who used to stuff fifty pugs a year hasn't laid eyes on one since 1903.

His last customer was a stout lady who brought her deceased pet on an elderly pillow, and went pitifully when told she would have to wait two weeks before he would be ready to look at it. Yes sir and yes ma'am! the pug has passed to that mysterious realm. He has gone into history along with high-wheeled bicycles, wax roses and New Year's eels. No person can picture a pug living in this eight-cylinder gas wagon age. He is a symbol of the gentler age.

The pug would wheeze himself to death and fall out—paw!—at the first hairpin curve. The pug belonged to the era of landaus, whatnots, horse-cars and old-fashioned turkey dusters.

The Nation the grand old publication, has been having a lot of praise and good wishes heaped upon itself the last few weeks in celebration of its fiftieth anniversary.

The periodical tells with relish and good humor a good story on itself. During its early days it often published a list of contributors—a solid array, too solid, some thought.

Immediately the editor of a frivolous publication of the time conspicuously reprinted the list in his own paper, preceded by the reassuring announcement: "None of the following writers contribute to these columns."

Only a Year of War

Only a year of battle—
 A year of fratricide,
 With brothers' knives for brothers' lives,
 Since brothers' love has died!
 A year of rifle rattle,
 Of worshipping of Thor,
 A year all bad, a year gone mad!
 Only a year of war!

Only a year of killing;
 Only a year of pain,
 Where each day fled is crossed with red
 By the sword-pon of Cain!
 Only a year of drilling,
 Of tireless training for
 The death brigade, the ghost parade!
 Only a year of war!

Only a year of weeping—
 A year of mothers' tears,
 Of rage and rout, of hope drowned out
 By butchered babies' tears!
 A year of gloom, on-sweeping,
 Mid deeds the saints abhor;
 A year of wrath down hell's own path!
 Only a year of war!

Only a year of sorrow—
 Twelve toms, one after one;
 Where days arise in blackened skies
 And in red skies are done!
 And what of the Tomorrow?
 Our through Time's corridor?
 Must we still cry to Him on high,
 "Only a year of war!"

MISS LOWE HAS RESIGNED AS HOSPITAL HEAD

Sends Letter To Safety Director

It was learned Wednesday that Miss Helen J. Lowe, superintendent of Hempstead hospital, had tendered her resignation to John Linck, director of public safety.

Mr. Linck said he would accept the resignation but with the understanding that Miss Lowe remain in charge of the hospital for such time as it could find a competent person to succeed her. This, it is understood, she is willing to do though she had hoped to be relieved at once. She expects to go to New York city next month to take a post-graduate course in nursing before definitely deciding upon her future plans.

The mayor said Wednesday that it is not fair to privilege the new superintendent to be appointed, to select her own staff of nurses and she undoubtedly will exercise care in surrounding herself with persons whom she is satisfied she will be able to control for the good and efficiency of the institution so that the former student nurses who might wish to re-enter the hospital service will have to comply with the rules of the department and apply for positions, and as previous records are to be considered, it would be folly to presume that any disturbers would be taken back.

The safety department is understood to have lined out for a competent head nurse who is at present located at the Protestant hospital in Columbus.

It is understood Miss Lowe has been offered a fine position in Cincinnati at a much larger salary than she is receiving here.

Miss Lowe's letter of resignation is as follows:

To the Honorable John Linck, Director of Public Safety.

Realizing that a persistent effort has been and will continue to be made by the political enemies of the present city administration to use Hempstead hospital and its management for political ends and aggrandizement, and knowing that under such conditions it is impossible to maintain the high standard of efficiency that the city should require and demand in the management of its hospital, and further realizing that an effort is being and will be made to reinstate certain nurses that are now out of duty at the hospital, and fearing that in cases of reinstatement of certain of these nurses it would be impossible to maintain proper discipline, efficiency, and management of this most important of the city's institutions, therefore

In order that you be given full opportunity to deal fairly and justly with these difficult situations, and also to relieve myself of the duties incumbent upon me as superintendent of this institution that are made especially burdensome by reason of afore-said conditions, and

That the high standard heretofore maintained in the hospital may be preserved and maintained as fully as possible, I hereby tender my resignation as superintendent of Hempstead Hospital, and request that my successor be named with as much dispatch as possible.

Appreciating the confidence heretofore placed in me and assuring you that my greatest desire is for the future welfare of this institution and the unfortunate people who shall be cared for here,

I am, very truly,
HELEN J. LOWE.

WORK STARTS ON VIADUCT

A force of fully 100 men is engaged in making a preliminary start on the new Lawson Run viaduct job.

The right of way is being cleared, hoisting engines erected, "dead men" being placed for derricks and unloading tracks put down. Carpenters are also erecting material sheds. The excavating will be started by Seymour and Simpson Monday.

The police have been appealed to by the contractors to prevent looting about the scene of the work, particularly boys, as one youngster narrowly escaped serious injury there Tuesday.

Harry Dixon Denies He Authorized Card

Harry Dixon called at the Times office Tuesday evening to deny the authenticity of a card that appeared in this paper a few days ago over his signature, in which he repudiated allegiance to Kaps and withdrew from his executive committee. Mr. Dixon said that he was for Kaps and not for McCormick.

The card in question, as well as those of two others, was given to the Times by Mr. Charles McCormick and Mr. George A. Ditty, with a request for publication and assurances that they were genuine. It is now a question of veracity between Mr. Dixon on the one side and Messrs. McCormick and Ditty on the other. So far as the Times is concerned it knows nothing about the matter further than as stated above.

THE SCIOTO IS FALLING

The run-out of the Scioto river which lasted several days came to an end Tuesday night when the stream began slowly falling. It had receded from 12 to 18 inches by Wednesday morning and all further danger of damage is over. The water did not reach the corn lands in the bottoms near the city.

CIRCUS HAD 55 DAYS OF RAIN

Robert "Bob" Abrams, who is with the Wallace-Hagenbeck circus, writing from Missouri, says that the show this spring ran into 55 straight days of rain and that it figured in two cloudbursts last week in Missouri. Despite the many days of rain, Mr. Abrams says the circus has been playing to fine business, as it seems to be a "rain show."

The show ran into a cloudburst at Omaha last Sunday and was almost flooded out. When the show finally reached St. Joe everything was washed out between that city and Kansas City. The show was in Monmouth, Ill., today and will be in Davenport, Iowa, Thursday.

OBITUARY

Frank Ford

News of the death of Frank Ford, who passed away at his home in Orlando, Florida, Tuesday night reached local relatives early Wednesday morning. Mr. Ford had been ill for many weeks with tuberculosis. The body will be shipped to this city and the funeral arrangements will be announced later.

Mr. Ford was about 45 years old and for years had been employed as a cigarmaker by the firm of Doerr Bros. of Second street. In addition to his wife he leaves four children as follows: Olive, Merritt, Lawrence and Helen. He also leaves one brother, William Ford of Findlay street, this city. Mr. Ford was for many years a highly esteemed citizen of this city and the news of his death will be learned of with genuine regret.

The body left Orlando, Florida, Wednesday for Portsmouth.

BANNON ROASTS THE 'OLD GANG' AT A BIG M'CORMICK MEETING

Charles McCormick's political machine slipped from low into intermediate and then high gear Tuesday night at a meeting of his supporters held at the county court house. Over one hundred and seventy-five voters were present, pledged their support to Mr. McCormick in his race for the nomination for mayor on the Republican ticket at the primary in August and accepted positions on committees named in each precinct to promote the interests of the candidate.

Hon. H. T. Bannon, who announced his allegiance to the McCormick forces at the meeting held last week, delivered the principal address of the evening. At the outset Mr. Bannon expressed his satisfaction over the results of the meeting held last week and was more than pleased with the audience he was addressing.

But his chief pleasure, he said, came from the discovery of the calibre of the artillery of the opposition forces. Threats of use of large centimeter and Krupp guns by the Kaps forces which had been heard on all sides, prior to the meeting of the Kaps forces in the Masonic Temple, had dwindled down to actual use of toy pistols and a box of paper caps, Mr. Bannon asserted.

He further stated: "The McCormick organization is the organization of Scioto county and the other fellows are the wickers. Let's all be for the organization, not be a kicker. The average person has no use for a kicker and I am qualified to testify along that line for I was a kicker myself for a number of years."

"We want to be for the state administration as I know that the state administration is for us. The Kaps forces think that if Kaps isn't nominated and elected mayor of the city the country will never have a Republican president. Understand I am not saying anything to belittle Mr. Kaps. Mr. Kaps is a good man, Mr. Osborne, Mr. Gims and Mr. Gilliland are all splendid citizens. They are all in to win the nomination—but I have heard they threaten to bolt the ticket if not nominated. All of them can not be nominated. If Mr. McCormick is defeated I want this organization to support the winner at the primary and elect him mayor. Get your constituents together, work before the primary, and then if we are beaten let no sore spurs remain."

"I understand that Mr. Holcomb is spreading the report about the city that Judge Osborne is the only man who can bring the city out of debt. Such a statement is absurd. We admit the city is in debt. The erection of a new water works and the paving of many streets has increased its indebtedness. Judge Osborne is a competent man. But no one man can reduce the city's indebtedness one cent. It is the taxpayers—the common people who are paying that debt."

"I want to repeat that we hold no ill will against any candidate or his supporters. We are going to beat the whole outfit but if we don't we will support the nominee."

"I want a meeting of Mr. Osborne's business men. Mr. Kaps' politicians and Mr. Gilliland's and Mr. Gims' supporters to get together and say the same thing."

Continuing his address, Mr. Bannon cited what he claimed to know of an effort of certain politicians to keep people away from the meeting held in this city, during the last gubernatorial fight, for Willis. A committee meeting was held, he said, in which it was arranged for a notice to be given to the newspapers, soliciting the attendance of the voters at the Willis meeting. But Mr. Bannon stated that the notice never reached the newspapers and other plans made for this meeting were not carried out.

"Men who promised to be there were not present. Mr. Willis came to me and said that he had not received such a cool reception at any other point in the state. He told me plainly that it was a frost. He asked me what was to be done and I told him I did not know."

"It looked hopeless to me. I told him how I appeared to have lost my grip on the boys. But I finally promised to do what I could. We went into that fight and won. We gave Mr. Willis a splendid majority in Scioto county."

"Then some of the other fol-

Police Wondering If "Ghost" Got Drum

The Cincinnati Times-Star of Wednesday morning said: "For many weeks, in fact ever since the schools closed for the summer, the folks in the neighborhood of Fifth and Mount streets have talked in whispers about the 'spook' that filled through the lifeless rooms of the old school building at that corner. The police did not incline much to the ghost theory, especially after it was discovered that a bass drum had disappeared from one of the rooms. Patrolmen Herman and Klump tried to enter the building, but found it locked Monday night. Harry Evans, colored, was finally discovered inside. The officers say they found a key in his possession, which they claim, unlocked the front door of the building. He denied taking the bass drum or any other of the articles that were reported as missing from the building."

Will Use New Tracks For First Time Sunday

Raymond York, of the Portsmouth Street Railway and Light Company, announced Tuesday that the new tracks laid from Young street east to the city's east corporation line would be joined to the old tracks on Gallia pike late Saturday night, a crew to work during the night in order to have the truck ready for use on Sunday.

NEW GASES OF GERMANS ARE DEADLIER AND QUICKER THAN EVER

Top, Russian Red-Cross nurses tending "gassed" Russians brought in direct from trenches on stretchers; below, paraphernalia designed to protect against gas bombs.

"The Red Cross learns that the gases which the Germans are employing on the Russian front are denser, deadlier and quicker in their action than heretofore," says Reuter's Petrograd correspondent. "Respirators are generally inefficient."

"I much regret," says Field Marshal French in his official report, "that during the period under report the fighting has been characterized on the enemy's side by cynical and barbarous disregard of the well known usages of civilized war and by flagrant disregard of The Hague convention."

"All the scientific resources of Germany apparently have been brought into play to produce a gas of so virulent and poisonous a nature that any human being brought in contact with it is first paralyzed and then meets with a lingering and agonizing death."
